Protocol of an extra-terrestrial report of the year 1958

| Title | : | Before the landing |
| Contactee | : | Medialer Friedenskreis Berlin |
| Mediums | : | Uwe Speer and Manuela Speer |
| MESSENGERS | : | |
| of LIGHT | : | AREDOS, ARGUN |
| SANTINER | : | ASHTAR SHERAN, OTHAR SHIIN, SETUN SHENAR |

These published words of the INTER-PLANATARIANS were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during many public seances. We deal here manly with *fully automatic handwritten messages*, which were subconsciously recorded by mediums with years of experience. These mediumistic messages are complete and were left in their original quality. The work of the two mediums began when they were 15 and respectively 17 years old. The total production is considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have tried to copy their work, but its quality was never achieved. The distribution of these recently re-catalogued messages and protocols is *explicitly encouraged* and are not covered by any copyright.

Preface by the publisher

In February 1996, I was able to ask a small Christian/Spiritual working circle a few questions in regards of the activities of the SANTINER. Here is an extract from that protocol:

Question: It is puzzling why the SANTINER behave so reservedly. This veil of secrecy has led to the situation that they are not taken serious enough. Is there not a danger that through their reservedness the SANTINER will continue to loose credibility? With an *increasing* number of sightings, people would slowly show more interest and would also listen to the transmitted INDOCTRINATIONS. Apart from that, it would give added support to all those *helped* by the explanations of the SANTINER. How does the spiritual realm view this problem?

Answer: This line of reasoning is correct, but it's unfortunately still too early. Many souls (people) *wouldn't know what to do with it* - Or to put it a better way, we would *trigger* a lot of anxiety in many people. At the present situation, this action would come too soon - *but it will come!* Many souls are well on their way and ready to make their divine SPARK shine. But this still needs time and patience. People who are *open* and live in a divine MANNER have contact, either through *sightings*, in *dreams* or through *astral travelling*. - If you would remember everything, you would be astonished about the number of times you have had contact and have been taught and talked with the SANTINER, your FRIENDS. Think about your INNER VOICE! Turn within and listen! You will discover your SELF and many questions will become clear and simple. You and everybody else have your MASTER and the answers *within yourselves*. Take time out for your SELF!

Question: Why doesn't the memory of it flow into my daytime consciousness after waking up?

Answer: *It serves your own protection!* - You would cope with the VIBRATIONS and the EXPERIENCE with great difficulty here on Earth. The *inner* connection is there and you feel the presence of the SANTINER too.

Bad Salzuflen, July 1996

Preface (by Herbert Viktor Speer, leader of the Medialen Friedenskreis Berlin)

There are mediums who *speak* in a trance and it has been established that they are used as tools by the intelligences on the other side. These psychic tools of the HIGHER POWERS create quite a sensation in many countries. But there are still a substantial number of doubters - and the representatives of academic knowledge always find sufficient explanations for this factuality, who's active state they place squarely at the ingenious, unilluminated and unconscious subconscious. In spite of that, every practitioner will ridicule the absurd contortions of these *illiterates of the psycho sciences*.

- The whole political misery of our Earth stems from this unbelievable and simply inexplicable attitude of those exponents of academic laureateship.

The mediums of the *Medialer Friedenskreis Berlin* are two young people aged 22, respectively 24 years. Both of them have a decent job and like any other social member of the public, do their best. They place their psychic ability without *remuneration* at the disposal of the Friedenskreis and sacrifice their spare time for this task. These mediums are *not* in a state of trance of any kind.

During these public meetings, there were always guests from intellectual circles, photographers and journalists present, these mediums proved their extraordinary abilities again and again. Unfortunately, any outsiders can't even get an impression of the overpowering persuasion of OTHERWORLDLY FORCES. The training was conducted through GUIDANCE and INSTRUCTIONS by ENTITIES from the other side. It lasted *five to seven* years.

- *The prerequisite for this was great humility and a positive resolve for the common advancement of one's fellow human beings.*

The MESSENGERS of LIGHT as well as the astral UFO occupants prove with their exceptional individuality and their supernatural KNOWLEDGE about subjects yet *unknown* to us, their absolute existence. If an open minded reader considers all these answers and indoctrinations *free of prejudice*, he must accept the fact that it would be utterly impossible for a young person with limited experience of life, to write with rapid speed and astonishing dexterity these kinds of answers.

Sometimes reading aloud is problematic as the writing is quite often, due to the high speed, very squiggly and all the words are written so they connect with each other. As further definite proof is the fact that both mediums, *independently from one another*, continue the same theme whereby the graphical characteristics and the personality of the MESSENGER of LIGHT or UFO occupant remains intact and can be recognised immediately.

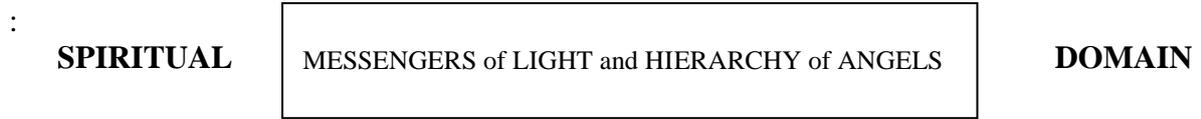

It is in the long run not possible to dispute the facts about an INVISIBLE WORLD, where intelligent people live.

The UFO occupants *fill the gaps*, which have been a hindrance for us in this respect.

SPIRITUALISM is the bridge to UNIVERSAL

PEACE! Herbert Viktor Speer

Introductory words by ASHTAR SHERAN

These golden WORDS handed down by ANGELS, coming from unimaginable distances as divine REVELATIONS directed at the humanity of a planet for development called Earth, I recommend the high PROTECTION and the wise PATRONAGE of an almighty GOD.

ASHTAR SHERAN

IN MAJOREM DEI GLORIAM

TRUTH shall make you free.

But mankind of this Earth *defends* the errors with bombs and canons.

TRUTH is the effort to gain insight into eternal life - and *not* the effort for terrestrial death.

Those that seek god call to the MESSIAH. Your MESSIAH is the totally authorised TRUSTEE instated by GOD. His name is:

J E S U S C H R I S T .

He called on MESSENGERS of LIGHT and HELPERS from others stars to announce the TRUTH to this human race, so that the mistakes the anti-spirit stoked and defended can be eradicated.

With every day and every hour, the HIGHER POWERS from other dimensions and spheres concentrate on this planet, without restricting the freedom bestowed by GOD.

- If you come across a *dead* body, you cannot have a conversation with it or ask of it to perform deeds.
- If you come across a living body, it demonstrates intelligence and is qualified to plan and act creatively.

In *both* cases, the body is visible and perceptible. But the intelligence is *invisible*, only its expression is perceptible. It has either contact with the body or it has regained its independence.

Who would dare to doubt that either one is present?

Birth unites both parts *together*.

Death tears them asunder again.

AND GOD REIGNS OVER EVERYTHING

Attention! - Attention! - Citizens of Earth!

We are MESSENGERS from other stars and have the MISSION to make contact with you. We have arranged many contact sites. Concentrate on our MESSAGE, it signifies your *future* existence. It is more important than anything else on your star. Write down our MESSAGES immediately.

We appeal to you to participate in a universal peace, a PEACE ACROSS ALL FRONTIERS, a peace between brothers, between sisters, between stars and a peace between GOD and all human beings throughout the universe!

You don't take psychic contacts *serious enough*, it represent contact with an unimaginable HIGHER WORLD.

You don't take these words serious, they could provide you with magnificent prosperity.

We are in constant contact with this HIGHER WORLD and have been invoked for years to bring you help. Millions of pitiable people languish in bondage and are at the end of their tether. The despair on this Earth is unimaginable for the mental capacity of one person.

We bring you MESSAGE after MESSAGE and cry with the despondent.

We are not in a position to visit you daily in our astral condition and to speak to you or write to you personally. We come from another star and are of a different physical solidness, which *hinders* us *very much* from spending longer periods of time with you. We have to make extensive use of our *spiritual potential* to communicate with you, for this reason.

I'm a MEDIATOR who understands your language to some degree and I will serve you as an interpreter. My name is irrelevant, as it wouldn't mean anything to you. But my position in the service of a powerfully organised and serious MISSION is my validation. I'm a living member of a humanity that can't be counted in numbers and of which *most* have found the connection with the ALMIGHTINESS.

We know that many of you ridicule our existence; but we also know that to ridicule something is the *strongest* weapon of all *ungodly* elements.

Frivolousness has always been the ruin of even the greatest and most powerful spirits. Your frivolousness, which expresses itself in mockery and derision against all HIGHER CONCEPTS and TRUTHS, will be your downfall, but from this downfall a new *golden age* will rise.

- *When to old collapses, the NEW will triumph!*

Many scientists, technicians, politicians, doctors and other academics of this Earth have *accurate knowledge* about our efforts, but they do not have the courage to support this fact and to confess that they are fully convinced that we exist.

He who *discerned* the TRUTH is under obligation to GOD to *uphold* this TRUTH. He who is afraid of his environment and *therefore* conceals the TRUTH, confesses to cowardice. But this cowardice is the enemy of all TRUTHS. Cowardice governs your whole world! Your widespread cowardice creates all insecurity on your star and you have to invent and build unmatched tools of destruction so that you can defend your cowardice.

- *Fear and cowardice are the attributes of an indescribable demon, which can only find visible expression in human beings.*

A hot potato

Our MESSAGES are *not* exactly new to you, we transmit them on nearly all of your continents. Many MESSAGES have been *misinterpreted* and many are just *forgeries*. We have managed to establish a few very important contact sites in Germany and also one in England.

Unfortunately your knowledge of the *occult disciplines*, that is to say of the supernatural, is only imperfect. You have *neglected* and ridiculed this most important science and you have called it a “hot potato”. Genuine prophets were treated like liars. Telepathy is used for horseplay and used by your doctors to analyse the soul. You label higher sensory aptitudes *unconscious* spiritual activity of an individual and call this unusual achievement “subconsciousness”.

You ask yourselves the question: “How can something physical recognise GOD and make contact with HIM, if (according to your notions) there is no GOD?”

We, people from another star, enter your bodies and perform many strange miracles of transcendental communication. Why do you call this well-known fact a “hot potato”? - You know as well as we do that there is a process happening in your body, which allows you to comprehend the world around you and which leads you to the conclusion, that you are entities placed *above* common creation.

You too have established schools and institutes of higher learning on your planet, which deal with every “hot potato” even if it’s *very hot*. You investigate every pestilence, analyse the greatest rubbish - and neither danger nor disgust deters you from investigating the smallest processes of a microbic world, to ascertain the LAW behind it. You explore coarse matter; but anything to do with *life within yourselves, is negated and rejected* with an incomprehensible shyness and scorn. - You know that heaven is within you, but you don’t consider this possibility. The heaven within you is:

- *Expand your senses and prepare your soul to make contact with HIGHER WORLDS.*

With this contact, GOD the CREATOR is *no* secret anymore, but an open minded REALITY in your spiritual range of energy.

Billions of your past citizens have suffered and were killed because they rejected supernatural TRUTH. Those with the right knowledge suffered death without dread. But millions of people on this Earth especially *fear* death, it doesn’t really exist the way your scholars describe it.

- *Suffering on this Earth is without equal and everything appears to be senseless. - You don’t look for the interpretation in your **error in reasoning**, but in the **apparent** cruelty of nature.*

But there is an absolute difference between man and beast.

- *The organic relationship is certainly present, but the souls of animals, the spirit of animals and man are entirely different, in fact so different that you would be ashamed of yourselves if you knew its reality.*

Above all you lack the necessary KNOWLEDGE, the required INSIGHT, you can definitely destroy the body, but *not* life itself. This is why you are not capable to mount a sound accusation against the iniquity of your scientists and theologians.

We from another star, consciously aware of a far higher universal INSIGHT, accuse the universities, your state administrations and your Church leaders all across the world, because they have *prevented* and *ridiculed* one of the most important researches.

The image of GOD

There is a great difference between you and us:

We have the greatest respect for the great UNIVERSAL GOD SPIRIT, especially because HE created a being of such high significance, the way man represents it.

Man as a living being has a consciousness, an individuality, which is nowhere else to be found in this form, in all of creation. He has his own will, high intelligence and an enormous imagination, he can plan and construct and he can change and rearrange the existing world.

Man is a part of all of GOD'S attributes and we found out this important insight by looking at ourselves and our brothers and sisters, we are deeply touched by the wonderful power and sublimeness of all the functions present in our human spirit and human body. This is why we have recognised GOD not just in a philosophical sense, but in reality in the image of GOD, *in ourselves as human beings*.

We approach, without exceptions, all our fellow human beings with the greatest respect, then every insult, rebuke and injury appears to us to be a BLASPHEMY. - HIS completed WORK is our power of devotion and we aim to *maintain*, *cherish* and to *honour* this exalted WORK of GOD.

This also is why it is a very hard test for us to concern ourselves with your *disregard* and to censure you. You do *not* respect GOD'S exalted act of creation in man, in your fellow man, because you have no concept of the sublimeness of the Great Spirit you call GOD. You persecute and kill the supreme and most splendid entity, which is capable of comprehending, besides GOD and his angels, all of creation.

If one considers the development throughout the universe, humanity of planet Earth is unfortunately very backwards. This star is a *meeting place for backward souls*, which have an unplanned existence either bound to or separated from the physical.

Arrogant and intolerant groups of people dare to mistreat and hinder the development of millions of people created by GOD, who owe their very existence to the CREATOR, by exploiting and threatening their life, yes even take their life to the disgrace of universal mankind.

- *Murder is the greatest theft; and if it happens in great numbers, we consider this misdemeanor a superlative robbery of the PROPERTY of GOD.*

The hour of Earth's humanity has unfortunately already struck dear brothers and sisters and your downfall would already have happened, if the SPIRITUAL WORLD of the great CREATOR had not called upon us to prevent the downfall of more than 2 billion people on Earth, with our supernatural mediators and prophets. Not because there is an acute danger that this star might start to change its molecular structure, but because the atmosphere is *totally contaminated* by rays which

are completely unknown to you, so that later generations will not be born healthy or will be able to grow.

- The reason is *your dissension*, born out of a false outlook of the true life.
- A false attitude towards the SPIRITUAL PLANE created religions and cults, which *cannot* be accepted by rational thinking people - and that *rightly so*.

But much that is denied is actually present, but in *another* way than interpreted and made into a cult. A religion disfigured by dogmas and fantasies, as is has been developed and popularised in many variations on this star, would *never dare* to present our children with fairytales.

It is therefore no surprise that your sensible people just laugh about it and simply refuse to believe those miracles, because apart from a few philosophies, they have nothing better to put in its place.

- *An bloated mistake, anchored in hundred of thousands of book, immortalized in the bookshelves of libraries, cultivated as the highest fountain of knowledge and used in idolatry services, defies description.*

We know that you also ridicule *us* and refuse to believe in our existence, exactly the way you refuse to believe in GOD and the devil, even thou you would have to find confirmation of their powerful existence every second of your daily life.

Can thoughts and remembrances or concepts be written down by machines and equipment and be recorded and presented so that everyone can comprehend them, *without* spirit making their comprehension and understanding possible? - No! You know too well that your are not advanced enough to register these spiritual vibrations, but you would not dream to deny the existence of the spirit because of this.

Why do you deny quite contrary to this fact, a SPIRITUAL WORLD?

You see for instant our spaceships, you *register* and *photograph* them. You have highly developed instruments you call radar and with it, you can *locate us precisely*. But in spite of this, the people on Earth who do not have the same opportunity of a definite point of reference, do not get to hear the TRUTH, and therefore can't acknowledge the fact of our existence, unless they do, by chance, see one of our disks with their own eyes.

- *The fainthearted should **not** know what the powerful know and plan.*

Language fails

The term "technology" is *your sacred cow*.

- With technology, *you* would like to *dethrone* the UNIVERSAL GOD SPIRIT.
- With technology, *you* *kill* people and animals.
- With technology, *you* would like to *eliminate* the living soul of everybody.
- With technology, *you* would like to *attack* the whole universe and *overtrump* GOD.

The technology *we* developed is *not* there to kill. We don't use electricity or explosives or rays for any kind of murder, unless we kill animals in a painless fashion.

The more powerful your technology evolves, the more *at risk* is human existence on your planet. Every new invention brings *new* dangers for all life on this Earth.

We have a lot to tell you, but we can only very *seldom* talk to you face to face, because even though our plane of existence is somewhat similar to yours, it is still so very different, that we have to overcome some difficulties, which we are working assiduously to solve. In spite of this, we have sufficient power to keep you under control, if we are forced to do so.

But such an action doesn't conform to our insight and development. We therefore endeavour to use *other* means, which have *nothing* to do with violence against you, against our brothers. It may be true that the higher authorities of this Earth look upon us as enemies, but we are *all* children of a great CREATOR and the word "enemy" is not in our vocabulary at all. Unless there are sick and ignorant people we do have to call enemies and we do have to eliminate, because with their thoughts and actions they can do damage to other people.

You are afraid of these sick and ignorant people, especially because they are unpredictable. We don't fear them, because we are *healthy* and make more positive use of our minds, than sick and ignorant souls could do. We *don't* counter violence with violence, because the result is completely unpredictable, but we apply logic and the mind to give this unpredictable violence the opportunity to *realise* its mistakes.

Violence *destroys itself* and thereby *solves* all problems in connection with it. You developed and established your technology mainly for mass murder and general destruction.

- *You have produced so much armament, that you are incapable of work for peaceful purposes, because your own technology is threatened from all sides.*

War technology is the greatest maldevelopment and must inevitably lead to destruction. There is no protection from war technology, then as a slave of the physical, man is helpless and is always in the sights of that pitiable spirit, whom has become insane out of its heightened craving for power - and whom you call the devil.

Only spiritual concentration on the sense of the physical existence of man can overcome this calamity. We would like to help you do this - but you don't expect *this kind of help* from us, but you expect a help that enhances your technology and make it *even more powerful, even more dangerous* for mankind on Earth already suffering enormously.

We would *never* do this, because we *don't* want to be *accessories* after the fact. We are not inclined to transmit technological data to you, which could strengthen, in any possible way, your power over life and death over your fellow human beings.

But we are prepared to transmit to you HIGHER INSIGHTS, especially on a spiritual, respectively religious or occult, that is to say, magic level, if we see that you are willing to *accept* our INDOCTRINATIONS.

Unfortunately language always represents a huge *hindrance* with all of these DOCTRINES. We are therefore forced to communicate with you in a very primitive manner. We have to use your and not our vocabulary. But your entire vocabulary is *insufficient* and mixed with superfluous concepts. You do have a lot of different languages and dialects, but what is the advantage in that?

- *You have a large repertoire of expressions and designation - and this is still not enough to explain the glorious and at the same time spiritual CREATION with all its important functions.*

Just as deficient as your knowledge is in these areas, your language is just a poorly, it lacks expression and power of explanation, no matter what language on Earth we talk about, so that you are especially uninformed about the highest FIELDS of KNOWLEDGE and thereby can't find any explanations for the highest PHENOMENON and for any "non-supernatural", but extraterrestrial occurrence, which you simply dismiss with words like "miracle" or "mystery" without delving deeper into its actual essence.

This fact *hampers* our MISSION exceedingly, as we don't want to serve you with childish phrases, but we want to be taken *completely seriously* by all scientific and leading agencies of this Earth's humanity.

- *The higher VALUES of divine ACTIONS and everything connected with it, are no mere bagatelle but something serious, which can **decide** the whole physical existence of mankind.*

Owing to the many gaps in the conceptual vocabulary of your languages, our MESSAGES and COMMUNICATIONS seem to be primitive at first and are therefore regarded as tracts of religious fantasies by many of your faultfinders. But we put up with this mockery, as we don't undertake long journeys, measured in light-years, through space, if your SURVIVAL was not endangered.

- *You have more to loose than just a physical life!*

Give our way of expressing ourselves more consideration, it hinders us, because we only have one option to communicate with you, unless it's through heightened telepathy. But the translator often fails too, he might have a bit of an idea, but he can't put it in words. This is why we prefer to do it in a supernatural way, like angels, even though we are far from being angels.

Space is inhabited

- Many years ago, space seemed to be *empty* space.
- Sometimes later you knew that this space was filled with *gases*.
- These days you already know that space is filled with *energies*.

But you still are *not* aware that space is actually *alive*, something we have known for many, many years.

The energies present in space are of the finest composition and are the *carriers* of an unimaginable INTELLIGENCE. We are dealing here with a cosmos extending into infinity, filled with MOTIVATION, with EXPERIENCE and with CONCEPTS. It is the INTELLIGENCE, the MIND and the CONSCIOUSNESS of the CREATOR.

Every person has a share of an especially designated wavelength in the cosmos, in your words: of an attuned FREQUENCY. No human being can go beyond its individual FREQUENCY, but one's own wave range can certainly be highly developed.

A decision made, thus a spiritual, respectively a mental act of will, has an influence over matter. A thought can be expressed. A foot or an arm can be moved. All muscles can be moved by spiritual commands. This is a *visual power* of the spirit and it's compelling.

Every movement can be guided by the mind. The command is invisible and a spiritual process, it *isn't* guided by the brain, but guided *via the brain* from the cosmos, through an individual FREQUENCY into matter, that is to say, according to the respective molecules and atoms.

- *Molecules and atoms react to the power of these spiritual commands. - Molecules and atoms also react to spiritual commands that originate from the whole cosmos.*

The spirit of man makes use of divine LAWS, to which matter is also *subordinated through divine LAWS*. Therefore the human body reacts to commands that come from the whole cosmos - and you simply call it "*vegetative behaviour*", even though it would have to be called "*intuitive behaviour*". But all movements of the body, which originate from an individual, respectively an allocated cosmos, which you call your "consciousness", you denote as "conscious activity".

GOD *doesn't* know of such a conscious activity, as HE hasn't got an organic body and therefore *cannot* become active in this manner. But GOD uses *other* possibilities. HE stimulates every atom and every spiritual VIBRATION through HIS will.

Accordingly, GOD is a spiritual TRANSMITTER, who sends his WAVES throughout the universe and *initiates reactions* through innumerable FREQUENCIES or keeps them *under control*. At the very moment this CENTRAL cosmic TRANSMITTER of coercive INTELLIGENCE would stop its function, the whole universe would have to become utter chaos and would collapse within itself and disintegrate, as the GREAT LAW, the GLUE that binds it all, would be missing.

Man can't disturb this TRANSMITTER or stop it from functioning. He can only disturb certain areas, which are supplied by the TRANSMITTER.

GOD has virtually the MASTER KEY to all rooms, even if the single rooms called "man", has its own key, it doesn't fit any other room.

- *The great UNIVERSAL SPIRIT GOD has access to **all** the memory of a person, if HE uses his MASTER KEY to the cosmos.*

It is at least some worldly progress that you recognise thought-transference (telepathy). Therefore, thoughts must race through space invisibly. They move as delicate WAVES through the cosmos, but they *don't* emanate from the brain, but from the *transcendental soul*.

The THOUGHTS of GOD also race through space, but not everyone has gone to the trouble to *expand their range of reception* to such an extent, that he can receive these WAVES, but it would *certainly be possible for everybody*.

We, the inhabitants of UFO'S have developed these abilities greatly through *exercise* and receive our best inspirations from the high WAVELENGTH of the THOUGHTS of the genial CREATOR - and *it was only through this, that we could build our spaceships!*

All of this is very hard to explain, as your language is *inadequate* and you could absolutely not imagine anything, if we would explain to you that the process, using your vowels and resonance, would sound something like: "*Sen-kuama-rieh-tan-tu*".

Every molecule, every atom and every x-particle is *alive*, as it's *spiritually receptive*, if one uses the *correct* spiritual language. This way, every atom and x-particle reacts *intuitively*. There are therefore no miracles, but only a natural reaction of the x-particles, atoms and molecules, if they are appropriately and positively "animated".

The LAW inherent within these particles is *binding*, as long as the supply for these particles comes from the whole cosmos, from divine WILL. But if another force opposes this supply, the behaviour of the particle changes, it reacts more or less to the new spiritual transmission.

De-materialisation, telekinesis, levitation and magic apparitions of light are reactions to these kind of COMMAND-TRANSMISSIONS.

Matter used for spiritual TRANSMISSION is divine ORIGINAL MATTER, which one could describe, with your wisdom, as an enormous, invisible and immeasurable LIGHT. The ENERGY is enormous as it has the greatest power of penetration and range.

This invisible LIGHT fills all divine REGIONS of the universe and space; consciousness and actions of thought are based on this material.

- *GOD'S THOUGHTS as well as the thoughts of all other creatures are alive as cosmic LIGHT.*

Error reigns

Nearly all the despots and responsible war experts of this planet are aware that nuclear test pose an extreme danger to the continuity of mankind.

We have continuously mentioned this crime and warned you accordingly! - Our warnings were not exactly ridiculed, but were regarded as an impossible demand.

The political past of this planet is horrific, and fear of superiority of the enemy governs all nations, because on this Earth there are *nations* and not one *closed* humanity.

But you have not yet recognised the true, *invisible* enemy; rather, you don't take him serious enough. Races and nations have separated from each other. Earth was divided up and separately claimed *by them*.

- *Birth decides the home, not the reincarnation on this star.*

The borders are barricaded by a violent death; the machines are robots with neither heart nor soul, which guard over these calamitous borders that separate brother from brother. Heart and soul are missing along these borders and only show an interest in the insensitive execution of the gained powers and further isolation of the various types of people.

The development of this humanity has gone in a number of directions, which in turn has separated them quite a distance from each other. A *unified* path *cannot* be walked on, because one or the other nation already travelled too far on a particular path would have to *turn around* so that they could walk along the new path. This is an impossibility in your eyes, because the other nation has always paved the way on the dangerous path already. To merge is impossible. This *unique* situation in GOD'S universe has had the result, that all people on Earth walk on the wrong path and get lost.

The meaning of your nations is to threaten the neighbours.

Your science and technology have created options, adequate enough not just to kill people, but to completely annihilate whole nations, yes even change the Earth into a cloud of ash.

For mankind, Earth is not a home anymore, but can be compared to *death row*, where everyone is waiting for his execution, not knowing if it will be carried out today or tomorrow.

- *Earth is not a divine PLACE for BETTERMENT, but a physical hell, where Lucifer has free reign and willing helpers.*

In such a situation, freedom is not possible!

We, people and creatures from the star METHARIA had to occupy ourselves with your problems, trying to find a way out. Based on our own history, we can only ascertain that:

Error reigns!

If *one* nation would disarm, the *other* nation would triumph. To give up one's power would really mean to bow down and to hasten one's downfall. Good will would be interpreted as *weakness*. Humanity on Earth could only be saved, if we execute an *example of our might*, which would completely upset your whole armament systems.

You would ask the question, could we really do this?

- *We too have the means at our disposal to completely wipe out humanity on this Earth, **without** risk of casualties on our side.*

We have asked ourselves the question many times, if we would serve UNIVERSAL HUMANITY by doing this, and if in the eyes of GOD, such a punishing action would be justified? Our EXPERIENCE and INSIGHT answers this with an emphatic: *No*.

No nation on Earth is prepared to take the first steps of general disarmament and detente. As the situation presents itself at the moment, even we, from the other planet of redemption, can't understand what you have given rise to, by your competitiveness to kill, that nobody wants to give up one's power, that is to say, one's *assume* security. But a situation like that can't be sustained for a long time.

- Power is *not* security.
- Power is constant threat.
- There is only one POWER that *doesn't* represent a threat: the great power of LOVE, as long as this POWER doesn't suddenly turn to hate.

We would dearly like to help you with unimaginable and enormous POWER of LOVE. But we have come to realise long ago, that there *can't* be LOVE without *true* KNOWLEDGE of GOD.

- *The term or name GOD, CREATOR etc. can never be separated from the term LOVE. Because wherever LOVE gains independence and separates itself from GOD, it soon turns to hatred.*

This is where the whole problem of this humanity on Earth lies!

You have no real perception of GOD and of LOVE, and this is why you'll never be free of all your difficulties. The stronger your powers *grow*, the greater become your difficulties and the further you *separate* yourselves from GOD and from LOVE.

We had large conferences on Venus dealing solely with the power struggles on Earth. We have also come to the conclusion that there is only *one* way to rescue you. This rescue can only be *non-violent* and this is why we are so *extremely careful* in our decision to maybe visit your Earth *demonstrably*, according to one of our plans. We don't want to be *misunderstood*. We certainly have no evil intentions.

The fact that mankind is incorrectly governed everywhere cannot be kept a secret nor can it be distorted. You might show surprise, but you know this already. You will ask us the question: "Where is one incorrectly governed?" - I say to you as a mediator between you and the people from other stars: "Everyone is incorrectly governed everywhere on Earth!"

This is not intended to be a call to arms for a world revolution. Revolt has always had the same negative results as war. Wherever carnage takes place, injustice reigns *anyway*. It's *not* the idea that does the fighting all the time, but sin.

- *War is anger that would like to appease itself through destruction.*

But as you are not willing or able to *give up* your lust for war and to *mutually* apply yourselves to progress, you must disarm *something else*. Don't be horrified about what I'm a going to recommend to you by order of a *divinely aligned* HUMANITY:

Disarm your false religion!

This doesn't imply that one should separate from GOD or from the TRUSTEE of this Earth, JESUS CHRIST, nor from BUDDHA or other great FOUNDERS of RELIGION.

- *But you are lacking the elemental KNOWLEDGE about creation, about the spiritual and physical life of man and this applies also to your fathers of the Church and your preachers.*

Our RELIGION is not about the investigation of the existence of GOD, but an *close association* with all existing human souls, whether they're to be found in a visible or invisible, in this or that sphere, on this or another PLANE of VIBRATION.

- RELIGION means: *The veneration of GOD in living MAN.*

You don't have the prerequisites for the disarmament of your terrible tools of destruction anymore. But you do have the power and the prerequisites to *disarm*, to *simplify* and to *verify* your more or less *fantastic* religions so that everybody can understand the TRUTH. If you go along the road of organized world peace, then the disarmament of all adverse installations and machines will follow immediately.

One of the brutal governments on your Earth has recognised that earthly religion instigates pronounced harm and is therefore on their list of banned institutions. But the same government didn't just distance itself from false priesthood, but at the same time rejected the golden granule called TRUTH.

- *The hatred of past mistakes has unfortunately lead to spiritual blindness.*

After all, GOD is not elected states-president, unless the people come to *HIM*. But we come as MISSIONARIES of SPACE RELIGION and bring you KNOWLEDGE of eternal life and an existence in the realm of GOD, which encompasses innumerable stars.

*Wayfarers of this Earth - do not turn into blind and crippled beggars, then the mighty of your planets humanity will be **small**, when they realise that they haven't past their test on Earth.*

Many of you want the same as the major antagonist of GOD wants, namely to *make* people, the brother, *sick* and to *destroy* him, body and soul. You call every elemental spirit "devil" or "Lucifer". What shall I call those brothers and sisters on Earth, which do exactly the same?

Your force is directed against innocent nations, against those who toil arduously and have no say in matters of life and death. Your force, concentrated in your state administrations, *has the power* to eradicate *false* doctrines. The disarmament of false doctrine and prophets, that is to say, dangerous errors, is your highest duty of state, it demands faithfulness to absolute TRUTH, which represents a duty to the great CREATOR of the universe and everything that exists.

You *already know* the *real* TRUTHS, but they are *ridiculed* or quashed as hypothetical nonsense. People with a negative attitude in fine and meaningful positions repeatedly come up with new and *fishy* excuses, *to twist*, *to minimise* or *to destroy* these TRUTHS.

Fishy excuses can sound very intelligent indeed and lies too can sound highly logical. The application of high intelligence *doesn't* necessarily have to be positive, it *doesn't* have to strike at the heart of the TRUTH. In your case, high intelligence is at work *to discredit* the highest concepts of existence and to bring about inescapable chaos, because this intelligence is *misused* by high, but negative spiritual powers of the cosmos.

The TRUTH towering above all political objectives is as follows:

- *There exists a spiritual POWER, which is the bearer of an unimaginable thinking INTELLIGENCE, whose willpower can decisively influence everything in existence. In the English language, this POWER is called: G O D .*

All mankind's throughout the universe are made out of the same substance, the same light as the UNIVERSAL SPIRIT - and are therefore DIVINE.

Mankind is *not* something special, restricted only to this Earth, but distributed throughout the universe. The levels of development are *different* and adapted to the firmness of the respective physicality. All human beings have a *tri-level* existence.

- (1) Soul with fluid (spiritual) body.
- (2) Soul with fluid (spiritual) *and* physical body.
- (3) Soul with *purified* LIGHT BODY.

Reincarnation (born into flesh) happens *by degrees*, according to the LAWS of spiritual development, for as long as it takes to *overcome* a planetary level. According to these LAWS, man will return to Earth until he has redeemed his *own* mistakes (karma) - to then be introduced to a HIGHER LEVEL, after some preparations. We, the UFO occupants, respectively METHARIER, that is to say, people from another star, have thankfully reached already.

- After a life on a planet, a fluid (spiritual) existence follows *immediately*, with an impaired individuality of consciousness. Only the activities of the senses can be *handicapped*, if the appropriate spiritual advanced development is missing.
- As reincarnation takes place, the capacity to remember the many negative attributes gained in a previous life expires.
- But negative attributes can be regained.

After reincarnation and physical death, the remembrance of many physically and spiritually experienced levels of existence occurs after some time.

Everyone thinks and acts *individually* - but his perceptions are *not* individual, they're the same for everybody.

A higher level of sensorial talent is *possible* and *desirable* for every soul.

- *Whatever someone gained spiritually during a lifetime, isn't lost, it is his SOUL'S PROPERTY.*

Our MISSION

We have been in close contact with the INTELLIGENCE of the invisible universe for thousands of years. The SPIRITUAL WORLD continues to give us the MISSION to take care of the destiny of planet Earth and all its people. We, the people from neighbouring star, have the deepest empathy for all those people, who suffer because of these errors.

We have promised ourselves and our *communal* UNIVERSAL SPIRIT to consider and utilise every appropriate possibility, to bring you positive HELP. First and foremost is the possibility of influence, which happens with technical supported *telepathy*.

- *We will certainly not attack you, but we have all intentions to interfere, if the people of this star, in their entirety are exposed to serious danger.*
- *Day X is the moment, when mankind on Earth begins with its own destruction. At this point in time, we will concentrate all our might on planet Earth.*

If such HELP wouldn't be possible, our MISSION would be at an end and the CREATOR would have the LAST WORD.

This is all about a contest between superior spirits.

Even though we cannot know the UNIVERSAL SPIRIT'S LAST WORDS, we believe that we have some idea, and we have taken it into consideration at all our conferences on Venus.

The spiritual world has been informed that GOD is preparing a special sphere, in case HE has to have the LAST WORD in the matter between Lucifer and mankind.

UNDER ORDERS FROM ASHTAR SHERAN

Contact with SETUN SHENAR (Representative of ASHTAR SHERAN)

Dear SETUN SHENAR, we greet you with all our heart and we can tell you that thousands of people are waiting for you, are praying for you and are with you in thoughts and dreams. We are grateful that you care about us and that you are endeavouring to help us - and that we are allowed to have contact with you. We are happy to work with you and are willing to be your mouthpiece, when you have something to say to mankind.

ARGUN : I write through the medium of the UFO entity, SETUN SHENAR.

SETUN : PEACE ACROSS ALL FRONTIERS, my brothers and sisters on this glorious but however damaged planet. Please ask your questions quickly as I'm pressed for time.¹

Question : You know the structure of our legislation, administration and jurisdiction. Can you please tell us in a few short sentences, how this applies *to you*?

SETUN : On our home planet METHARIA, nobody professes to be a judge, but might function as an attorney, judgment however is passed down by the jurisdiction from the world *beyond*, with which we have excellent contact on a continuous bases.

Question : Do you have written laws or do you have customs, traditions and education that are anchored in law?

SETUN : Just like you, we have written laws, but these laws can be changed, if rational reasons are presented. We are not conservative, but we still have traditions.²

Question : Who carries out the legislation and makes the changes?

SETUN : We co-ordinate with the world beyond, they have a better perspective.

Question : Do you also have TEN DIVINE COMMANDMENTS? Do these COMMANDMENTS coincide with ours?

SETUN : We don't need TEN COMMANDMENTS. We only have ONE COMMANDMENT: GOD IS LOVE, GOD IS OUR CREATOR, strive to emulate HIM!

Question : Which agency is responsible for the laws you created?

SETUN : Agency? - Well, we are not as complicated as you are. They are always very educated, selected and deserving people of our world, selected to make these decisions and continuous changes.

One of these days, when your world is morally on the same level as ours, everything will be very simple; you don't need a large police force or agencies, as you call them.

Question : When you made contact with your friend *Adamski*, why did you hand him just some small items, like vases instead of some convincing piece of technology?

¹ SETUN SHENAR comes to us in his astral body as a separation from the physical body is dangerous and time consuming.

² The automatically written answers are instantaneously and the hand is guided very rapidly. The medium has no time to think and is surprised by every question and answer. These seances are no secret. The American spiritualists *Mark Probert Controls* have been in psychic contact with UFO'S since 1950. Similar contacts exist in England.

SETUN : We don't want to go into this. It is of no importance. We are not a variety show. We're more into *clarifying* things and we instruct in our own way, but suddenly it all gets out of hand.

Question : Can you tell us more about gravity, which you control so very well? We would be able to impress with this kind of information a lot better than by showing some vases, the way Adamski did. We need information so that science starts to listen and says: "This is right." We then would have *convincing* evidence.

SETUN : In all of our science there is nothing more extensive and complicated than gravitation and levitation. With our present state of technology, it takes special words to explain to you the many possible applications of the gravitational forces. You would have to be inducted in our language, as we *can't* find the *appropriate* words in your languages.

Question : Do small satellites, for example those we send into orbit, or smaller meteorites in space, have their own gravity as a body?

SETUN : Yes, they have this without doubt. If a small satellite is stationary in space, it only seems to do so. It orbits the Earth - and if this satellite sends a smaller satellite in close proximity, the smaller satellite will circle the larger one; but it depends on the material and the size. It can also be attracted and crash into the larger satellite. In all of these processes, the rotation of the larger satellite is of great importance.

Question : If we send a rocket to the moon for instance, can it attract smaller fragments from space, which could maybe circle it and then crash into it?

SETUN : Yes, certainly.

Question : In a case like that, do the fragments penetrate or circle the rocket?

SETUN : It depends on the way these fragments approach the rocket, whether they just graze the rocket or are on a direct collision course, it also depends on the material the rocket is made of. One can construct a rocket in a way that it would *repel* meteors.

Question : Are your experiences with rockets already behind you?

SETUN : For certain! This is way in our past. It is also *an incorrect* and *expensive* way.

Question : Can you tell us something about our rocket research, respectively, what were your conclusions about your own trials?

SETUN : We have come to the conclusion that rockets represent a technical pastime that gobbles up money like nobody's business.

Question : Could this mean that our rockets are not suitable for space travel?

SETUN : The problems of space travel *cannot* be solved in this way. The way to achieve this is completely different. In this respect, your technology hasn't got the foundation; it has chosen the *wrong* directions, most of the time.

In our opinion, space travel is for you a subordinate problem, as you have completely *different* worries, whose alleviation is *much more important* than your rockets. *What use is it to you, if you can fly throughout the universe and still be afraid of death?*

There are actually politicians and scientists on Earth who occupy themselves with the idea to *emigrate* to another star, to then *explode* the Earth to its complete destruction from an assumed safe distance.

Question : Will we be able to reach another star through our tests?

SETUN : With the rocket propulsion system, “missiles” can be launched to the moon, but for the transportation of people, these rockets are completely unsuitable. Gravity has to be regulated on a large scale to guarantee the survival of people on a long space journey.

As mentioned before, we solved the problem of space travel with the help of dematerialisation. You simply can't grasp this possibility, because you haven't got the necessary experience with the grouping and dissolving of arranged atoms into a more solid form.

Observe our spaceships, which can change their form during flight, very carefully. We can make molecular and atomic changes at any time. We change solidified LIGHT (matter) into flowing LIGHT, this makes the periphery of the flying objects light up

The tragic of Earth

Question : Can you tell us something about the representative arts on your planet?

SETUN : We have various categories of art. Please pick one of them!

Question : Let's take the theatre as we have it, for instance. What I mean to say is, is there any acting going on?

SETUN : The art of acting is going to be as old as the humanity of all planets.

Question : Do you have plays, musicals or something similar the way we have them?

SETUN : No, nothing like that. As our technical possibilities are completely different, they are more ideally suitable for plays and have a more comprehensive content.

Question : How are your artists discovered and promoted?

SETUN : The spectators play a large part in the production. Our theatres are especially equipped for this and the manuscripts worded accordingly. The spectators plays an active part whilst sitting down and have therefore more involvement in the play.

Question : I take it that you know a few of our theatres. Can you give us an opinion on them?

SETUN : Your theatres are very nice, but unfortunately not large enough. Apart from that, your stages should be *circular*. Our theatres are of different constructions, especially in the construction of the stage. We have theatres for examples, which are build so that the

spectators in their seats, can move right across the stage, turn left and right so that they can observe everything more closely. The proceedings on stage can sometimes extend across a number of rooms, it is therefore more of a rooms-levels-stage.

Question : Do you have musicals or operettas comparable to our musical performances? Or are there other contents for you performances?

SETUN : Yes, we also have similar musical performances. But at the moment, stage productions dealing with the *tragic situations and the population of Earth* are especially popular.

We are very well informed about everything that is happening on your star and it is an exciting but devastating example for us. Similarly to the way you have an interest in dramas and plays, which depict the *seriousness of life* in certain situations, the terrible events on your star give us enough material so we can grapple with your problem of mutual destruction.

The conditions on your Earth give us a certain excitement in our theatres, and keep everybody in suspense. It is not utopia, but a devastating truth, even if it is on another star, we show a lot of interest in.³

Question : What is the sense, the object and the aim of your acting?

SETUN : First and foremost as entertainment, but also as art and above all, as indoctrination.

Question : Are there any public dance events your planet?

SETUN : GOD arranged it very peculiarly. There are two legged, intelligent entities, that is to say people, born on different planets and they quite often don't know about one another, but there still are a lot of parallels. As an example, we like to dance just as much as you have liked to dance for eons of time. But our dance remains within the boundaries of harmony. There are no ecstasies or senseless throwing around of limbs, which nearly border on lunacy, as it happens with you. Dance emerges from feelings.

Your dance events, more so your dances show us clearly that the people on Earth, especially the young generation, has no control and becomes ever more *disharmoniously*, until it has used up all its nervous energy. Music also plays a large part in this.

Music and dance should not tax the nervous system, but should be a finding of oneself in beautiful harmony. From this harmony, LOVE should grow. But how can LOVE and harmony grow from your dance concerts and your physical exertions? You don't look at the deeper meaning of such pleasures, you're only after *money and crazy sensations*.

- *By continuously looking for something new, you disfigure and mangle in a terrible way everything old that was still in tune with harmony and LOVE.*

We get the feeling that we are actually dealing with very small, inexperienced and disobedient children, which one doesn't like to punish, but which one can't allow the smallest of liberties because they get up to mischief and endanger the whole house. You certainly

³ It is really distressing to hear from the space brothers that mankind provides the themes for the great theatre tragedies played on the stages of other planets, to capture the imagination of the spectators. People from Earth, where is your sense of shame, exposed like that to the universe of GOD?

haven't got a place in the HOUSE of GOD, then disobedient children like that are send to the filthy courtyard.

But GOD surely knows *how* to bring you up.

We offer an example.

Follow our example without *ridiculing* us.

The atom and its potential

Question : For writing and printing and for many other applications, we use paper as a medium. What sort of medium do *you* use for those kinds of applications?

SETUN : We also have a kind of paper. One cannot really call it paper. But we also have a very thinly pressed material, like your paper, made out of synthetic material. It comes in various qualities, it's either produced so it can easily be torn or so that it's indestructible.

Question : What is the basic material used to make this paper, which would have to be produced in large quantities?

SETUN : As a building material we have "atoms", which we arrange and group, as we want it. But we naturally have a *different* name and concept for "atom".

Question : Do you also have deposits of coal on your star?

SETUN : If we condense some of the freely available "atoms" floating in space and rearrange them according to our requirements, that is to say, group them, we virtually create materials from nothing. We can give these fairly variable forms, to some extent. But we are still pretty much at the beginning with this invention. We only just started to delve into this. This process uses enormous equipment and excellent workmanship, they are absolutely necessary for these experiments. Our technology has completely different possibilities, they are *less dangerous*.

Question : Do you exploit the raw materials on your planet in a similar fashion as we do here on Earth?

SETUN : No, but we have in parts depleted the resources of our star very much, but since this new invention in regards to the controlled grouping of free atoms, it will soon not be necessary anymore to harvest materials from the subsurface of our planet.

Question : Does this mean that food is also produced from these freely available atoms?

SETUN : Yes, we have been doing this for quite some time, but only selected items of food. We know of *no* contamination happening during the conversion process, as it occurs unfortunately in your case.

Question : Do you have any comments about our technology?

SETUN : You are much *too complicated*, even if not dumb on this subject. If one takes your opportunities into consideration, you achieve an enormous amount. But this path will lead you only slowly towards simplicity. But in a *lot of ways*, you are on the right path.

Question : Which branch of technology is the right one, so we can advance?

SETUN : Your equipment becomes ever more beautiful in shape, smaller and more practical. You are even starting to miniaturise and round things off, I'm now talk about furniture and machines.

Question : Are your large enterprises owned by the state or are they in private hands?

SETUN : It may sound communistic, even if isn't communism in your sense of the meaning, but they are owned by the people.

Question : Do you have political parties?

SETUN : No, we have gone beyond that. Party politics is a conflict without an end.

To be righteous is everything

Question : Are there certain power struggles between employers and employees, the way they are the norm here on Earth?

SETUN : Yes, very frequently, but it never happens that anybody loses their cool and fails to play their part. Common sense has always prevailed up to now, and an acceptable solution for both sides has always been found. The harmony between people may not be disturbed by *just demands*. *To be righteous is everything*. You lack trust in justice and this with good reason.

Question : How are the prices of your products determined and who decides them?

SETUN : The price is determined by the quality of the product, its availability or lack thereof. Machines generate the prices.

Question : Are people disadvantaged by unjust prices or speculations?

SETUN : *Never*, a machine is inequitable. As our economy is *not* interest based, the prices calculated by machines can be trusted. Man is a higher, I mean to say, the highest being in creation, created for physical life. Man has a claim for absolute justice, in this and the other EXISTENCE.

Question : There are a lot of people who believe in the "theory of apes". If this were the case, there would have to be apes living on other planets capable of sustaining life?

SETUN : • ***Darwin's theory of evolution is complete nonsense.***

There have never been creatures like that where we come from, but there have been others. The fact that such human-like creatures live on this star is for us definite proof

that the great antagonist and archenemy of GOD resides here permanently. He also has his respective image. He appears to be full of humour and harmless, but he is two-faced and of dual character. One might as well assume that because of our organic similarities to all warm blooded animals, material, respectively physical man evolved from there. Nearly all animals have a heart and kidneys, excrete faeces and reproduce along the same lines. Organs are life support systems adapted to living conditions. - You are looking for the origin of man and you look at the lower spectrum of the animal world. The phases of development of the embryo have nothing to do with the creation of mankind. The origin of mankind is *not* to be found on this star.

Question : Does the absolute monopoly of the monetary based economy hinder the development on Earth?

OTHAR SHIIN: Earning money is a comprehensible concept. What isn't comprehensible is the mishandling of the gained assets. Whoever gained a certain state of affluence is obligated to make contributions to welfare; otherwise he is systematically eliminated from the community and loses any rights of co-determination, as you might say, he loses his civil rights through sheer self-interest. All citizens safeguard against this judicial decision, otherwise they would find themselves at the end instead of the beginning of their prosperity

Question : Does this mean that assets are charged with a welfare tax?

OTHAR SHIIN: No, this is not the way to interpret this. Contributions to welfare are *completely voluntarily*. The prosperous can decide the good purpose their money should go to. He donates it freely, but is still obligated to do so if he wants to exist and be respected as a human being within the community.

When doubt creeps in (by H. V. Speer)

The reader might have asked themselves the question, where from and how these MESSAGES from our SPACE BROTHERS came to us. The messages are psychic, but unfortunately only very few people know the great importance of the word "psychic". Even a respected scientist will only accept the things his mind understands, in what he *believes* and what his own experience teaches him, or what can be impeccably repeated in an experiment.

But if the respected scientist is *incorrectly* informed and under no circumstance wants to believe in GOD, and if he is of a *contradictory* nature and *hasn't* been able to gain any experiences of his own in the psychic (paranormal) field, how can he make comments about supernatural possibilities or facts bordering on miracles (they actually are miracles), which are happening outside of all our known laws? - Occultism has to fight against these sort of difficulties. The Christian Church never overcame these difficulties.

Well known psychologists have always preferred to place anything supernatural *down to the subconscious* of man. The fault with this is that this consciousness in man, respectively in the physical, visual man is made of, is assumed to be there. But we shouldn't forget that radio waves, as carriers and transmitters of many broadcasts, pass right through the body, without leaving a visible trace. Therefore the human organism is just a guided, remotely controlled tool, where the central control is not located in the brain, but outside the physical. The brain with all its neural connections functions only as a relay and interactive organ to the whole body.

The soul as the true perceptual organ is *cosmic* and receives its VITALITY from the cosmos. Why does an amputee still feel his lost limbs? (Phantom pains) It is inconceivable to him at first that he should have lost a limb, as he didn't register a change. This important realisation has been recorded very extensively in literature. There might be a few errors present, but the fact that there is life after death is not affected by these mistakes.

Experiences in the field of the paranormal confirm most of these conclusions. It is not the exercise of these messages to give instructions about the supernatural abilities of man. There are enough specialized journals available. What is of importance is that these MESSAGES from UFO'S have come to us through the astral mode. There are very young, uninfluenced but well experienced people at our disposal, to bring you these MESSAGES. They are *honorary* mediators, which are capable of complete separating from their own resolve, so they can be utilised by invisible INTELLIGENCES.

- *It is of the utmost importance to deal with this problem, as herein lies the actual source of the TRUTH.*

Because of the previously mentioned reasons, the "Revue", a magazine issued in Munich, in its 30th edition from the 26th of July, 1958, thought it important enough to produce a special pictorial edition about the establishment of these UFO MESSAGES by both mediums of the Medialer Friedenskreis Berlin. This report is titled: "Monika Speer talks to space".

Many of the readers of these UFO MESSAGES know that both mediums are absolutely trustworthy. Their psychic ability is not questioned. But the readers still ask themselves, if this on its own, guarantees the security, that one is *not* dealing with a misdirection from the netherworld. We have to take this suspicion into consideration and create clarity; otherwise these messages are worthless.

The following reasons support the TRUTH:

The mediums have been *tutored* by the OTHER WORLD for *seven* years, *without* gaining any material advantage for themselves. The LEADERSHIP from the other side has *demonstrated* with their excellent INDOCTRINATIONS, that the willingness to help us was in every way above-board. About 1,000 protocols bear witness for the high, Christian preparedness and LOVE, to indoctrinate, to warn the human race and to raise us to a higher spiritual and moral, as well as social level.

These MESSENGERS of LIGHT, the mediums promote a first-rate friendship with, also introduced the SPACE BROTHERS into the circle and provided the necessary escort through the lower, invisible Earth spheres, where dangers lurk.

It is unthinkable that these proven spirits (MESSENGERS of LIGHT or TEACHERS from the OTHER SIDE), with their high state of purification, would allow themselves to be used for quite evident hoaxes and lies. The special kind of flying saucers they announced, were actually spotted in Scandinavia.

- *The UFO occupants cannot be summoned, they appear unannounced, when it suits **them!***
- *The pressure applied during automatic writing varies. The UFO occupants have different graphical characteristics and guide the hand in a dissimilar fashion than the SPIRITS.*

Whoever would like to know more about the UFO occupants, should read the three highly interesting factual reports: *Nicht von dieser Erde, (Not from this world)* Part 1-4, published by Herbert Viktor

Speer. These reports include a number of psychically drawn pictures by the MESSENGER of LIGHT, JOHN SHERIDAN. The medium was Uwe Speer.

The way of angels

We people from far off worlds know that your spiritual guardians deal with our existence and hold the belief that we are angels. One thing is for certain, our forefathers have visited you ages ago.

We UFO occupants - as *you* like to call us, of late we even have been called IFO - are *not* GOD'S angels. We don't want to be confused with these BEINGS of LIGHT, as that would be BLASPHEMY. But we are very close to GOD'S SPIRIT WORLD, exchange thoughts and plans and allow ourselves to be instructed and *act* on behalf of these radiant BEINGS, because GOD'S SPIRIT WORLD has very little contact with the physical.

- *We're a link between the spiritual and the physical world.*

Many, many years ago, your world also had such a link to the astral plane, as an example, your beloved CHRIST you have a lot to be thankful for, who in spite of his suffering maintained contact with the HIGHER SPHERES of the glorious OTHER WORLD.

In spite of many warnings, the people on Earth have continuously allowed themselves to be duped by the visible world. True happiness *isn't* found in physical, but in *spiritual* possessions, one of them decomposes while the other continues.

You look at things from your perspective and are continuously deceived, especially by your inverted measurement of time. Many think it unnecessary to bother with spiritual treasures, because they're hooked on mockery, but you risk your physical life for material possessions.

Your poor spiritual attitude brought forth many incurable deceases. Earth's citizens also believe that they haven't got enough time, so they amass and own things, above all, they want to take advantage of all their abilities gained on Earth as quickly as possible and their thoughts and actions end up being *superficial*.

We UFO occupants, we're actually called METHARIANS, know very precisely, that time is endless, divided into separate sections of development and we can *never* lose our acquired abilities, nor can we miss out on something someone has achieved before us.

The highest ability and the highest KNOWLEDGE are on a very specific level of our existence, that is *our* Insight. Whatever we have learned and experienced stays with us, and we take it with us on our journey to the other side, where our experiences will also advance our development. But we leave our material possessions with those still living a physical life, we are not unhappy about this - and we also do not grieve over our departed ones, because we know with absolute certainty, that they continue to exist in another LAND, but are still connected with us. If it were different, the whole creation of GOD would be senseless and a waste of time and effort.

But you believe unimaginable nonsense in our point of view, namely that a universe of unimaginable dimension and grandeur exists, unreachable for you, because people exist only on Earth and they soon turn to ash and dust, without leaving behind a LIFE ENERGY, nor a soul or consciousness that could survive this destruction and decay. But your ignorant Churches teach you about a resurrection, you shouldn't know if it will take place in a few hours or in hundred of thousands of years.

Above all we know that we couldn't kill a person. We can probably push him out of his physical body, but we know too well, that the bell will also toll for us one day and that we would inevitably meet up with our victims. The victims waiting for you are too many to count. You have no idea what it means to meet all those you begrudged a life on Earth.

You are terribly frivolous and frightfully brash, because you believe in the vengeance of a GOD, but experience tells you that a GOD of vengeance *doesn't* exist. This doesn't mean that there isn't a GOD of LOVE. But this GOD of LOVE has his LAWS and you know that these LAWS are *binding*, even more binding on the enormous planes of the spirit. _ Just listen to your *negative* philosophers, they were masters at limiting life's experiences. Therefore listen to them, if you want to *blaspheme* GOD and his HELPERS.

- *We have no philosophy, only life's experiences.*

Human thought on its own is not enough. There are people amongst you who have found their way back to GOD - and they feel this brilliant connection that pulls the veil from their eyes. They warn you in HIS NAME, but you don't believe them, because this planet is a star of falsehood, where all *fallen* spirits mess about.

Human kind on Earth is our patient and a very impatient and vicious one at that, who doesn't want to take the prescribed medicine, because it's a bitter pill to swallow. He doesn't want to follow the diet we recommend. But the thermometer indicates a maleficent fever.

One expects our arrival today or tomorrow, as a belligerent army of soldiers who have to carry out a great invasion on day X. One expects us as if our world was made from the same substance as your's.

Well, it doesn't work like that. -

We would certainly be in a position to surprise you like that. But it would tax our wellbeing too much. You also wouldn't enter a chamber filled with poisonous gas without researching and analysing this gas first. We act exactly the same. We send our spaceships to investigate and collect a lot of samples from your atmosphere. We then build the equipment that should make a longer stay on your Earth possible, accordingly. Could you for instance walk on the bottom of the ocean, just climb out of a submarine and converse with sharks? We can't do this either. This is why we stay in our large spaceships in space and only send our small shuttlecraft down into Earth's atmosphere.

I said that we couldn't even talk on a personal level, it would be like a conversation under water. We therefore lie down and go to sleep and concentrate our astral body out of our physical body with the help of a ray machine, to visit you *like the angels do*. (See picture on page ?) HIGH SPIRITUAL ENTITIES from the realm of GOD are our PROTECTORS and COMPANIONS. We place our trust in specifically chosen and authorized LIGHT ENTITIES, who lead us to qualified mediums.

But there is unfortunately a nearly insurmountable problem. You have no idea about these kind of invisible visitations. This is why we visit people and circles on your Earth who understand something about and experiment in this field. But the ignorant imagine themselves to be smart and laugh about it.

One of the greatest dangers for you is the fact that you have completely negatively orientated all your large communications media. Radio, newspapers, television and also motion pictures are all danger-

ous instruments capable of generally *poisoning peoples minds*, as many useless people are at work not just spreading mistakes, but also unequalled devilries.

The world of invisible existences is much more extensive than you guess, and if it wouldn't exist, your body wouldn't have a soul, no spirit, no thoughts and actually no conscious I (ego). - Research the field of the invisible intelligence and you'll achieve much more than by spending billions on death and destruction.

- *Don't waste your time with super-mass-murder, but concentrate on SUPER-MASS-LIFE, which fills the whole universe.*

What does freedom really mean?

OTHAR SHIIN: Dear brothers and friends, dear sisters on this star GOD equipped with beauty and richness. We know what moves you, what your aim is and what obstacles you have created for yourselves.

The volition of man is *not always* the volition of GOD and the power of man is *far from being* the power of GOD. You have destroyed substantial elements of your gained insight. Distorted remnants in the shape of demonic dances and necromancy indicate a long forgotten knowledge. Man is intelligent enough to realise that the whole design and operation of nature is ACCORDING to a PLAN and ORDERLY, according to permanent LAWS. But man is *dumb enough to deny himself* the belief in this order and systematics.

But man belongs *more than ever* into this divine SYSTEMATICS and ORDER - and his existence is not an automatic occurrence, but a material VOLITION of GOD. Who would ever even consider that a mechanical electro-brain would create itself? This technical miracle also needs an intelligent creator, namely a human being, who in turn is also a work of GOD.

You once knew your mission and the divine PLAN, but your priests have simply and unscrupulously struck the knowledge about reincarnation from divinely revealed KNOWLEDGE. You now moan because of the consequences of this malicious abnegation of a UNIVERSAL EXISTENCE. Now this divine freedom is getting dangerous for you and you're seduced into misusing it.

- *Your religions have managed to restrict the freedom of man and to detain him in a web of lies and false promises.*

Your religion teaches you to sin. Your religion based on lies states: Pray and ask GOD for forgiveness and your sins will be forgiven. Planet Earth's citizens now make use of this promise. They keep on sinning and believe that a few words can undo everything, because GOD is LOVE. This is the most brazen demand asked of the great CREATOR and it makes us all blush with embarrassment, because we are also human beings and you are our brothers.

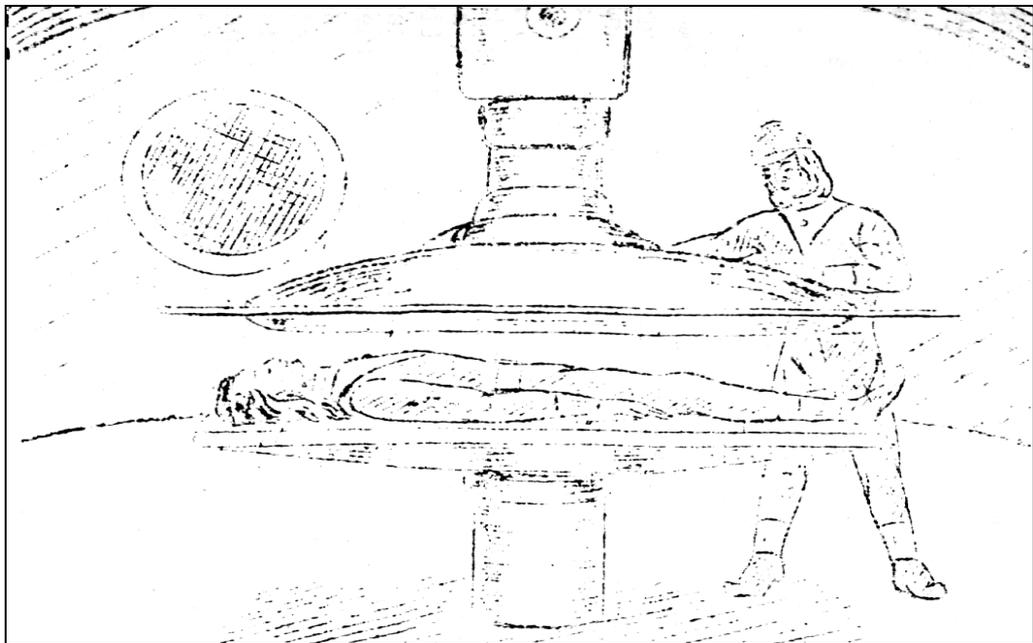

- *The is no other forgiveness than to change a sinner into a better person. Universal justice is unimaginable and untouchable. Whoever doesn't accomplish the change to the better will be immersed in this misery until he's had enough of it, and turns from the darkness towards the LIGHT.*

I warn you urgently: Freedom is dangerous, because your *false assessment* encourages you to misuse this freedom. Do not regard your earthly existence as a gamble. -

The penchant for communistic freedom is destined to fail, because there is no communism *without* accepting that there is also a spiritual man. There is no communism without GOD, then communism really means: A just existence for *everybody*.

Have you ever come across justice *without* regards to the LAWS of GOD? The so-called Eastern Block politics has distanced itself from Church religion and this with some justification in view of the false doctrines and the sanctimonious behaviour within the Church. But a dangerous gap appeared, which is now being filled with inhuman behaviour. By rejecting the false priesthood, mistaken thinkers have actually rejected GOD as well.

But now global communism confuses the term freedom with intemperateness. One party can only be a certain part and never the whole. One part can never be the only correct goal. Therefore don't engage in party politics, but in universal politics. Follow our example and finally adapt yourselves. *Don't* exhibit national pride, but avow to UNIVERSAL PRIDE, then EXISTENCE is larger than your little Earth.

LIGHT is ORIGINAL ENERGY

AREDOS: SALUTATIONS IN THE NAME OF GOD! - GOD is the great LIGHT.

I know that all people do not like to hear the word GOD. Somehow people are afraid that they could come under suspicion of believing in GOD. They know that GOD is not held in high esteem and therefore don't want to be looked upon as outsiders. This is sadly the way of modern man, he *participates in* everything *the masses* consider to be all right. This is why atheism is fashion and we as

TEACHERS, find it difficult to remind you over again that there is *really* a CREATOR. BELIEVERS in GOD are labelled fools.

Well, it can't go on like that, otherwise it spells the end of progress on this world.

Instead of GOD, I could use different terms, for example providence or nature. If you prefer the term nature, nothing really changes, then GOD is really the same as nature. But you are not too sure about the difference between natural and unnatural.

Whatever is natural is also divine. But everything that is unnatural, is not nonsense, but the opposite of divine, it is antagonistic towards GOD.

- This is why *unnatural people* are antagonistic towards GOD.
- Everything evil is *unnatural*, because it is also antagonistic towards GOD.
- Sin is *unnatural* and therefore many of your present-day habits and passions are unnatural and antagonistic towards GOD, that is to say, they are *contradicting* the wise PLAN of GOD.
- Abstract art is *unnatural*, therefore antagonistic towards GOD.
- Gruelling and nerve titillating dances are *unnatural*.

But LOVE, especially cooperativeness is natural. The UFO occupants are *not* unnatural, on the contrary, they are very natural, because they play a large part in GOD'S PLAN. Their flying saucers are *not* unnatural, because they have been realised through inspiration from the divine realm.

When a psychic person suddenly sees a deceased relative or even telepathically exchanges a few words, it *couldn't* be considered unnatural *at all*, as he is in the realm of GOD. But if someone, because of his negative attitude, blasphemes about it and twists the TRUTH into a lie, because he wants to express his ungodly opinion by hook and by crook and force it onto other people, *that* is unnatural.

The case of Lucifer is therefore *unnatural* and even for GOD unfathomable. But your nuclear tests and especially your wars are *unnatural*, they offend GOD, because they don't create anything but destroy the created and constructed reality.

You don't know about the enormous POWER SOURCES, from whence one can draw glory. They are at the disposal of *every* creature. Such a POWER SOURCE is the sun. It is an unimaginable power source, as light is the greatest power in the whole magnificent universe.

There are *two variations* of light, namely physical light and SPIRITUAL LIGHT.

Physical light is an ORIGINAL ENERGY. Particles of light rush through the longest of distances and are extremely fast. Light has a high gravitation, similar to those of solid light bodies. It is a great force of attraction, pulling every plant and everything in existence upwards. If you fire a rocket, you know that it takes a lot of power to propel it forwards. But light is unbeatable in its power to move forwards; it is more powerful than any kind of magnetism or electricity. The UFO occupants have recognised this force and have thereby proceeded along the *correct* technical path, as gravity and levitation are closely related to physical light.

The INVISIBLE LIGHT is *even stronger*, it has the pure POWER of GOD and is the carrier of INTELLIGENCE. Its range and speed towers above anything that exists in the universe.

Please notice:

- *Physical* light with its secondary rays, like magnetism and electricity, acts *vegetatively* and *intuitively* on all atoms and cells and controls and aligns them in groups.
- The PHYSICAL LIGHT provides the power and substance for all *spiritual* existence and the POWER for every intelligent individuality.

It is a great mistake to assume that the physical can *bring forth* some kind of intelligence, with its atoms and molecules it can't even surpass magnetism and the conductivity of electrical impulses.

Organic life can never exist *without* SPIRITUAL LIGHT. Through these light oscillations, all intelligent orders and individual expressions of life vibrate.

All light oscillations take place in lawful harmony. Where this harmony is disturbed, all vibrations become unnatural and direct themselves *against* the LAW.

Your nuclear bomb explosions occur *without* LAWFUL harmony and go *against* divine ORDERS. You can work it out for yourselves what the consequences which follow little by little, are going to be, if the most important LAWS of CONTINUATION are thrown into confusion, respectively, if they are ignored.

- *GOD'S LAWS* are laws of nature, they are natural and have to be obeyed.
- *COMMANDMENTS* are not LAWS, they should be obeyed.

Poor Earth

Question : Are we here on Earth, compared to others stars, really lagging behind by 1,000 years?

AREDOS: The METHARIANS are not a thousand years ahead of you. They have in fact taken a different direction, a direction *more in tune* with GOD, with the result that it brought them a higher and better technology in nearly the same time frame.

Question : Can we also go along the same technical road?

AREDOS: No, you have gone *too far* already in the wrong direction. You can't just throw everything on a heap and start anew. One can't just start a new direction from somewhere in the middle. The only possibility is to eliminate the biggest worldly ideologies. Some of these are:

- The inaccuracies in religion,
- dogmas and the erroneous knowledge about the existence of the human soul.
- The doctrine of reincarnation has to be reinstated, ultra-existence and
- judgment day have to be correctly interpreted and
- GOD has to be acknowledged as thinking INTELLIGENCE with human like, but enhanced sensory activity.

Question : The political opposition to this is much too strong here on Earth. How can we accomplish these changes?

AREDOS: The political leaders gain all their knowledge from academic circles and institutions. But as neither the circles nor the institutions are positively informed about cosmic TRUTHS,

they are lacking transcendental KNOWLEDGE. If these circles would finally take the trouble to investigate the spiritual realm and include it amongst the empirical sciences and at the same time eliminate the outdated philosophical errors of reasoning, the leaders of states would become more careful and wouldn't engage in negative patriotism.

Question : Are we, the people on Earth virtually condemned to a particularly tough existence?

AREDOS: You are certainly not condemned to this by the divine WORLD, but you reap to fruits of your own labour. Even present day troublemakers and warmongers, atheists and negative teachers will reap the fruits of their own sown seeds one day, if not already in this life then in another. *The radioactive contamination of the gene pool in people will be their punishment.* They have condemned *themselves* already, to vegetate as a wretched creature, when life on this planet will have fundamentally changed. They're not aware that they are actually going to be the future generation that pays for past mistakes. To *curtail* this terrible danger is the assignment of the METHARIANS.

Question : The future doesn't therefore look rosy for Earth?

ARGUN : No, my dear friend, you may not say this. The Earth is wonderful and its inhabitants too. Earth has beautiful and fragrant plants, beautiful animals and multifaceted life. GOD also created it and it is *no* punishment to live on it. Only you *can arrange it the way you want it*. It is in your hands and not in the hands of GOD. It hasn't got more or less riches than other stars. Therefore listen to the MESSAGES of the MESSENGERS of LIGHT and the INTERPLANETARIANS.

We warn you repeatedly: **Don't be godless!!**

The PLAN of the CREATOR *isn't completed by a long shot, and all of us* have to be actively involved. But believe me, if all of us are filled with good intentions and give GOD a helping hand instead of attacking HIM, his great antagonist will loose and good will triumph. Then the day will come when Earth will orbit in space in serenity and peace, free from war and suffering.

Question : If the UFO occupants arrive on Earth in the shape of an invasion to help us, will the spilling of blood be unavoidable?

ARGUN : Oh yes. - Weapons won't be used to fight, as you believe. What can weapons do against an unshakeable BELIEF turned into empirical science? The UFO occupants will *not* shed any blood, these are not the directives from the realm of GOD. They want to bring you peace and *not* destruction.

- *You have the support of the UFO occupants and that means GOD'S HELP. Do not reject this wonderful HELP and do not mock the UFO people, it would also be a BLASPHEMY against GOD.*

Question : Can you tell us the greatest obstacle arresting our advancement?

AREDOS: Yes, to make it short and clear: You make the huge mistake by wishing the "dead" an eternal and peaceful sleep. No disembodied soul having shed its mortal coil, sleeps or rests. On the contrary - *immediately* after death, the individual becomes uncommonly lively. All spiritual functions run, as it were, flat out.

LOVE beyond all borders

AREDOS: People studying the bible have heard about the BATTLE of ARMAGEDDON. We deal here with a visionary prophecy. This BATTLE is *no* saga, *no* myth, but a spiritual quarrel in a world that is invisible to you. But this battle becomes more and more apparent on the physical plane of this Earth.

You don't believe in GOD and therefore certainly not in the devil. But disregarding belief or disbelief: Lucifer has lost all his positions in the spiritual realm and on the many stars in the universe and is looking for a *last refuge* on *this* planet, where a spiritually retarded humanity *helps* him. Lucifer fights with everything at his disposal to defend this Earth and to monopolise it.

It is the most tragic situation throughout the universe that most people on this Earth cannot grasp nor *want* to believe what goes on behind the physical scenes on Earth.

Superstition or TRUTH, that is the question - and the answer is:

- ***Without GOD***, everything transcendental is only superstition.
- ***With GOD***, everything supernatural is the purest TRUTH possible.

The forces from heaven and hell are concentrating ever stronger on this Earth. The age you live in is just as grandiose and troubled as to Noah's times, when one third of the surface of the Earth sank beneath the flood. GOD'S LAWS *did't* annihilate any Indians (American) or native tribes, but the well-advanced intelligence and technology of that era. People of culture, who rebelled against GOD, foundered and drowned in these enormous floods.

But *mankind didn't* disappear from Earth because of this.

- There are over two and a half billion souls reincarnated on this earth (1958) and there are many souls amongst them who drowned in these floods.
- But the consequences from that time also have to be atoned for. Cancer, polio, pestilence and cholera, typhoid and the flue - all of these terrible ailments *are the results of this sin*, as the terrible contamination of the atmosphere by the frivolous hand of man made all of these woes possible for the generations that followed.

GOD stands by his children. His LOVE emanates across all borders. HE draws his HELPERS from the furthest regions of his universe and gives them instructions and power, so that they can look after the destiny of this human race and to prove themselves in the SERVICE of LOVE.

Politicians and scientists have always held religion in low esteem, they *love* power and control of nations and find gratification in a barbarous game with death. These people bear reference to GOD, when they initiate a war or when their own life is on the line.

LOVE ACROSS ALL BOUNDARIES is the highest LAW of the universe.

LOVE is identical to HARMONY and PEACE.

PEACE ACROSS ALL FRONTIERS is the highest COMMANDMENT.

- *Your borders kill LOVE and its barriers inhibit any humanness between the various nations.*

Don't regard the people living on the other side of a manmade border as your enemies. Whether these people are black, yellow, red or white, whatever colour they may be, they are people with rationality and feelings, enabling them to recognise GOD'S creation even if their cultures differ.

ASHTAR SHERAN: As the leader of the large spaceship flotilla "ACTION VENUS" I would like to tell you that this great flotilla under my command, doesn't represent a combat flotilla, but a spaceship flotilla of UNIVERSAL PEACE:

- *We don't use force which can lead to enslavement or to the death of people.*

Before the landing of our spaceships, the population of planet Earth should be enlightened as much as possible so that they don't have to face this grandiose phenomenon with complete horror and ignorance. - This is our most *difficult* task.

We desire a well-balanced harmony and no disharmonious conflict. We disdain any dispute and we wouldn't like to put at risk our great friendship with the HIGHEST WORLD, which guides us.

Mankind burdens our feeling of responsibility and our worldly conscience. *Our prophets* have predicted everything and the visions they experienced have all come to pass with extraordinary accuracy.

- *This star is in great danger and its inhabitants even more so.*

You are *not* interested in prophets but very interested in canons. Your religious guardians even have the nerve to *bless* your tools of mass murder in the name of GOD the eternal LORD and MASTER over life and death! - To use your words: "That's the absolute limit!"

The holy hierarchy of ANGELIC BEINGS, which have to guard the whole universe, is psychically tortured by your behaviour, something which is not repeated anywhere in the whole range of divine EXISTENCE. I'm devastated to have this mission to censure a humanity that has fallen by the wayside. We are all ashamed of the fact that we have brothers and sisters who share a common cause in the service of the *dark* angel with his army of murderers and cutthroats, they are now psychically and physically tormented to death.

We are used to uttering *loving* words. But my tongue is dry and my eyes are red when I have to witness the conditions that dominate on this star. In the truest sense of the word: "It stinks to high heaven".

You had a divine ENVOY on Earth and you have preserved his DOCTRINES. But you mock these DOCTRINES and ridicule GOD in the most unbelievable fashion, when you turn TRUTH into lies in the name of the holy Christian church and consider a nuclear death as the only solution out of your self-inflicted misery.

The ARCHANGEL MICHAEL, who's responsible for the outcome of the devilish events played out on Earth, is the General Field Marshall of this huge ACTION supported by GOD, mobilising all of us. We have *preferred* the German language, because it suits us better.

The angel of darkness, the exiled bearer of light, the egotistic antagonist of GOD, lives spiritually on this star. It is his last domicile and the great debt will have to be payed off right here on this Earth.

The phenomenon present in the firmament represent already a visible signal for the final conflict of a quarrel that had its origin on another planet. This Earth is saturated with the blood of millions and millions of people. The maleficent instincts of Lucifer have rampaged here. Here he has made his threats come true.

- *Pull yourselves free from the scoundrel and antagonist of GOD, who is clinging to you and has brought his associates to this Earth, to carry out his grand scheme of destruction.*

If you are still of sound mind, please don't make it too hard for us. We are ready to help you in any rational and possible way.

- Take notice of our WARNINGS and MESSAGES!
- There is not a lot of time to loose. We can bring you only a few of these MESSAGES. *We will only have a few more opportunities to do so.*
- Look after your divine existence, it is of COSMIC importance and eternity.
- Don't follow Lucifer into a darkness from which no CHRIST will be able to redeem you.
- Observe our spaceships and flying saucers, they *prove* to you, that you *haven't* been abandoned.
- *Pray* that the difficult clash with the anti-spirit, with his unimaginable power and cunning, may succeed.
- Don't increase his powers any more through your frivolousness and by humiliating and killing your fellow man. Every drop of blood spilled on this Earth is a victory for the ungodly!

If mankind makes one mistake, the anti-spirit with its unimaginable concentration will win the day on this planet. His victory would announce:

SEE GOD, I HAVE DONE THIS TO YOU!

ON THIS STAR, WHICH WAS SELECTED FOR THE REDEMPTION OF YOUR CHILDREN,
ONLY HUMAN MONSTERS WILL LIVE IN FUTURE.

I don't know what else I could say to you. - It is all in *your* hands now.

SUL INAT NIS OTHEN!

PEACE ACROSS ALL FRONTIERS!

ASHTAR SHERAN
