Protocol of an extraterrestrial contact from the year 1973

Title : **Your Earth**

Contactee : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)  
Mediums : Uwe Speer (17) and Monika-Manuela Speer (15)  
Extraterrestrial : The world teacher, ASHTAR SHERAN

These words from INTERPLANETARY BEINGS published here were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during their many public séances. We are mainly dealing with fully-automatic written messages, unconsciously received by two mediums well tested over time. These psychic messages are complete and they were left in their original form. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the Menetekel and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these messages and protocols is *explicitly encouraged* and is not covered by any copyright!

---

## Preface by the publisher

The British scientist James Lovelock gave planet Earth the name “Gaia”. This was the name of the Greek goddess of the Earth. Lovelock expressed the thesis that the surface of the Earth with its land, oceans and the atmosphere on the one hand and life on the other hand, form a closely allied overall system. This system controls the global climate by maintaining a specific ratio between oxygen, methane and carbon dioxide gases. This process – according to Lovelock – makes life possible.

Lovelock writes: “The ‘Gaia’ hypothesis appeals to those that contemplate the consequences. It is an alternative to the idea that nature only represents a spiritless force that can subjugate and destroy man. All life on this planet represents a tough, robust and adaptable totality; we are only a tiny part of it. Large plants and animals are comparatively insignificant. They rather resemble elegant sales personnel or dazzlingly looking advertising models. They might be desirable, but are not necessarily required. The invigorated and dependable workers that populate the Earth’s surface and the bottom of the oceans in the form of micro-organisms are the ones that keep things turning over.

Man on Earth behaves like a bull in a china shop. The process of self-regulation can fall apart when catastrophes like the impact of a meteorite bring chaos to the whole system by suddenly creating either a colder or warmer climate. Such impacts have caused the mass extinction of animals and plants in the past. Mankind is presently engaged in creating such a catastrophe *all by*

*itself!* Life might eventually get back to normal, but the question is whether man can survive the required period of time it takes for this to happen without outside HELP. This is why one should listen to the ADVISORS that occupy a *higher* rung on the evolutionary ladder and also possess a greater overview.

The day will come when the terrestrial pride to ask for HELP must yield.

Bad Salzuflen, February 1994

**Preface** (By Herbert Viktor Speer, leader of the Psychic Peace Circle, Berlin)

Since 1957, we have published a sizeable series of extraterrestrial contact reports. These enormous TRUTHS have created such a stir that the world's press and various television companies took an interest in them.

General ignorance in regards to ESP research has led to a situation where most people do not believe in extraterrestrial contact, but rather regard highly qualified TRUTHS to be science fiction accounts. To describe these contacts is difficult, because a specific textbook would have to be written.

To put it in a few words, we're dealing with the following:

- There are a few people whose sense organs possess a *range beyond the normal*. One calls these people mediums. These mediums present the sciences with an enigma.

ESP research has been financially supported quite generously in the Soviet Union and this produced new insights. *Telepathy* in particular brought irrefutable evidence.

The Psychic Peace Circle, Berlin formulated the received messages in a similar fashion. We are dealing with a kind of psychic radar here the extraterrestrials use every now and then. During the 16 years of collaborative teamwork with the SANTINER, this form of communicating has been developed to such a high degree, that misunderstandings could hardly ever occur.

These ASHTAR SHERAN messages are rational; they have nothing to do with aerial fancies!

Sightings of "flying saucers" all around the world number in the hundred of thousands. Ever since the end of World War II, this has been discussed and reported about. One still tries to *twist* these facts in ever possible way in spite of this. There is however one piece of evidence that is absolutely reliable, namely the *Miracle of Fatima*. Those that therefore doubt the existence of UFOS should take an interest in the *Miracle of Fatima* and compare it to present day UFO sightings.<sup>1</sup> The bible can also be consulted (Ezekiel for instant). One will also find sufficient evidence there that extraterrestrial spaceship visited our Earth in those days and also that the SANTINER always endeavoured to *improve* the Earth's level of maturity.

The *Psychic Peace Circle, Berlin* does not deal with this type of evidence. We do not count the number of sightings and we also do not give technical date about their spaceships, we are mainly interested in *communicating* with the occupants of these spaceships. We receive their communications and we endeavour to explain to people that these messages *are genuine*. – One

<sup>1</sup> See brochure "Messengers of the future".

can of course negate everything and interpret things differently, but this certainly doesn't solve the problem!

Our Earth is exposed to an unprecedented danger, a danger it does not have to be exposed to, because it can be removed just like that. Extraterrestrials are also aware of the recipe for this alteration. This however entails a world wide elucidation the powerful of this Earth would fight against with all available means. For as long as the whole human race listens and believes the interpretations of the powerful and world's publicists, an enormous barrier remains in place and it is not easy to get rid of it.

But let's listen to the voice of the SANTINER anyway. Most messages from the world teacher and UFO commander ASHTAR SHERAN have been translated into other world languages and published in book form through the book trade. These for us so important messages from the extraterrestrials created quite a furore.

Even if one still tries to dismiss these messages as hoaxes or fantasies these days, the now world renowned ESP research meanwhile verifies the opposite. The potentiality to make contact with extraterrestrials through the brain is better than with outsized apparatuses -, but this however requires a *perfectly accomplished medium!*

The Psychic Peace Circle, Berlin has such a medium, one that has been trained by eminent INTELLIGENCES for decades. There are also a number of mediums in Japan and the USA capable of receiving extraterrestrial messages without having to resort to an apparatus. As mediums improve over time, the messages they receive naturally also get better, because the difficulties languages represent are gradually overcome.

One tries with great assiduousness to verify the existence of extraterrestrials. All of the results from this research are adamantly combated against and rejected. It is nevertheless impossible to completely conceal the facts of their existence.

Mankind's responsible leaders want to retain the freedom of their thoughts and actions; they reject any extraterrestrial observations and criticism. But all of this will be of little benefit to them, because the SANTINER are messengers of a POWER that governs the universe. The tolerance they show us is based on their decision to not interfere in our development through the application of force if at all possible.

### **Press interviews** (By Herbert Viktor Speer)

A number of television companies and many newspaper companies have shown in interest in our contacts with extraterrestrials. Pictures were taken and interviews were published. It was however always very difficult to explain how these contacts took place; to explain their genuineness is impossible to do with just a few words. ESP research, that is to say, researching the invisible with its ENERGY makes the unusual comprehensible these days:

- *Telepathy is not confined to our Earth, it reaches unimaginably far out into the universe. Apart from that, telepathy has been accurately verified by science. Such types of tests have been successful across thousands of miles.*

Telepathy however also works between those that are here and those in the hereafter!

Even though this fact is not sufficiently known, the possibility however exists that people on Earth can be *hoaxed* in this way.

The journalist of a world-renowned daily newspaper asked me the following question:

Question : It is not my intention to denigrate ufology, but I would like to receive exact information from you. Which kind of evidence do you think is best in this case?

Circle leader: The bible represents a historical account of extraterrestrials having visited the Earth. The contactees were approached in their own language.

Question : Scientists regard such visits impossible because the distances involved are too great. What do you say to this?

Circle leader: Scientists have always spoken out against difficult to explain phenomena. We are however dealing with an extraterrestrial event that cannot be explained on hand of terrestrial experiences and laws. The theory of relativity does not represent an absolute limit for such a phenomenon.

The fact that we are visited and have had such visits thousands of years ago verifies that not everything is quite correct with our scientific knowledge. One cannot assume that the bible has been falsified in this regards, particularly not because one had no inkling of space travel in those days, but a theistic religion already existed. This is why all inexplicable phenomena are ascribed to GOD and HIS HIERARCHY.

The journalist *Wulf C. Schwarzwäller* from the *Axel Springer Publishing Company* also paid me a visit and asked me the following question:

Question : I have been informed that you already pointed to the bible in 1959, thereby indicating a connection with the legislation received on Mount Sinai. The best selling author Erich von Däniken repeats these expositions.

Circle leader: I know that von Däniken knows our brochures and that he was guided by them in many respects.

Question : Are these extraterrestrials antagonistic towards us?

Circle leader: On the contrary, they are very friendly, tolerant and filled with brotherly love. They want to have a *positive* influence on mankind on Earth.

Question : How do you receive these SANTINER messages?

Circle leader: The SANTINER – that's what they call themselves – are sending a telepathy that has been concentrated through technology. These thoughts are intercepted by an otherworldly GUARDIAN ANGEL that has been specifically trained and they are then handed on to a psychic medium. We then receive the message during a séance where the medium uses *automatic writing* to put it down on paper, it is then read out aloud by the medium and recorded on tape.

Question : What if you are being hoaxed by spirits?

Circle leader: The medium has been working in this way with the *same* GUIDING SPIRIT for more than 20 years. Such a break of trust is impossible, because during the more than 1,000 séances, the responsible GUIDING SPIRIT would have immediately indicated that such a falsification was taking place. Moreover, we were able to *recheck* the information that we received in this way.

A number of newspapers published this interview, thereby verifying that a general interest in UFOLOGY is constantly on the rise.

In an interview with Wulf C. Schwarzwäller, Erich von Däniken told the paper:

“If Mister Speer has such good contact with his heavenly warrantor, he would be well advised to ask for things that could further research, for a physical formula for instance that would help us solve Earth’s and human civilisation’s up to now unsolved mysteries. For as long as he is unable to do so, I can neither take him nor his alleged contacts serious.”

We naturally asked these questions; some of them were published in the three brochures titled “Giganten in All” (Cosmic giants). The SANTINER will however *never* give us any technical details of their spaceships.

ASHTAR SHERAN had this to say:

A. S. : *The people on Earth are not yet mature enough for such information. We know that such insights would only be abused. Revealing our scientific and technical knowledge would mean that planet Earth once existed and that it would never ever be able to accommodate life again.*

We are aware that Erich von Däniken *attempted* to make contact with extraterrestrials – but *without* success. Such contact will never come about with deriders and atheists (and also not with dishonest people). This would be contrary to the MISSION the SANTINER are pursuing. If Däniken is not aware that these questions *cannot be asked*, he has no idea what these extraterrestrials are all about. *We* on the other hand know *them* very well and have entertained contact with them for more than 20 years – and this with FRIENDSHIP and LOVE in our hearts. Most journalists and television personnel do not think differently, because they have been programmed by the reports they read. The majority of them doubt their existence and even more so contact with extraterrestrials.

The journalist Wulf C. Schwarzwäller continues:

Question : Why did the SANTINER particularly prefer *your* circle to make contact with?

Circle leader: There are other circles that are approached in this way. There is for instance one circle in Brazil and also in California and Japan. We are therefore *not* the only SOURCE of REVELATION. All of these reception centres are *spiritually experienced* and accordingly equipped.

Question : What do the Russians say about this, because they do not believe in supernatural things?

Circle leader : Scientists in the Soviet Union are presently *extremely* interested in supernatural perceptions (ESP). The results attained are of great importance. The human spirit with all its conscious processes is delved into with all available means.

Question : What is the Russian's attitude towards ufology? Are they being influenced by these phenomena to a degree where one could say that their political decisions are different from before?

Circle leader : Some very reliable documentation of UFO sightings is at hand from the USSR. The sciences there assume that the existence of extraterrestrial civilisations is a fact. The official Russian response is: "These types of illusions and fantasies cannot be photographed and they cannot influence radar either."

Question : How does the public react to this opinion?

Circle leader : The Communist Party in the USSR decides and they do not take the sciences into account. The official communiqué of the party reads: "Searching for UFOS is unscientific!"

Question : One therefore continues to lie to the people and the world at large.

Circle leader : The actual stance the sciences take is published in the magazine "Sputnik". This journal is distributed in over twenty countries.

Question : Are you of the opinion that the governments of the super powers are accurately informed about extraterrestrials?

Circle leader : Yes, certain government departments are informed. One however dreads any such publication. If people were correctly informed, chaos would ensue in many areas. Governments do not trust their own people.

Question : It sounds very much like science fiction when you say that extraterrestrials can amplify their telepathic messages through technology. One will consider such things impossible.

Circle leader : You must be badly informed. The USSR is particularly interested in this very thing. Parapsychologists in the Czech Republic developed various generators that are capable of being charged up through human energy. This is already the beginning of terrestrial telepathic energy amplification. This is naturally breaking new ground for us, but this has been a matter of course for the SANTINER for a long time.

Question : There is nothing really wrong with these messages, however the way they are received seems a little suspect. Why don't the SANTINER verify their existence by giving us technological details that could actually shock us?

Circle leader : We sometimes receive messages that are not designed for publication, but only for our own information. But if we would publish technical data about the SANTINER that can be understood, I can tell you with reasonable certainty that my body would be floating in the River Havel (Berlin) within a few days. Who would be so dumb

when it comes to something as enormously important as the problem UFOS represent. You can see how naïve von Däniken answered in this respect.

Question : What impression did you get? What will the SANTINER really do in this matter?

Circle leader : Extraterrestrials will continue trying to explain to us that individuals have more to give account for than they apprehend. Life after death is an *absolute certainty!*

A journalist from the “Bild am Sonntag” (German newspaper) asked:

Question : Von Däniken assumes that Sodom and Gomorrah were destroyed by a nuclear explosion. You say that we’re dealing with an anti-gravity field. Who is correct?

Circle leader : We naturally rely on the statements made by extraterrestrials, respectively the SANTINER ASHTAR SHERAN. He made the comment that an extraterrestrial influence was also at work when JESUS was crucified. He calls it: *Teletecton*. The ground around Sodom and Gomorrah was stirred up through *anti-gravity*. Houses were destroyed, graves opened up and a lot more. One can however not talk about an explosion, because there are no indications in this respect. The indignation felt by the SANTINER is however quite apparent.

Anti-gravity’s energy is incredible, it even propels spaceships. The Red Sea and the River Jordan were also pushed back. A *vortex of anti-gravity* threatened the boat when the *prophet Jonas* fell into the water; he was rescued by a spaceship.

Von Däniken only assumes that extraterrestrials used a nuclear weapon, but this is incorrect. We rather believe what ASHTAR SHERAN has to say, he must surely know better.

The journalist *Wulf C. Schwazwäller* wrote in a Munich newspaper:

“Von Däniken proclaimed some very interesting hypothesis, but Speer on the other hand proclaimed his insights as being the TRUTH and this is the difference between them.”

## **About man’s personal freedom**

Extraterrestrials brought us a HEAVENLY LAW and it was handed to *Moses* on Mount Sinai. It was unfortunately destroyed at that time.

The NINTH COMMANDMENT of the INTERPLANETARY LAW reads as follows:

YOU SHOULD KEEP THE FREEDOM I ENDOWED YOU WITH SACRED  
AND NOT ABUSE IT TO YOUR ADVANTAGE.

An explanation from the SPHERES of LIGHT:

*Freedom has been fought for since time immemorial; a sign that that freedom is something precious. You received your freedom as a present from LOVE so that you should not be hindered during your life on Earth. You should be allowed to develop your mind, your senses and feelings*

*as well as your free will so you can enter MY realm through self-knowledge and experience, in order to receive the symbols of absolute freedom from MY own HAND.*

*Instead of endeavouring to gain freedom, you engage in suppression and in war. Freedom is the absolute TRUTH within a peaceful existence. Freedom cannot be achieved through violence, because it is the crowning glory of a realisation. You neither have to fight for nor to seek freedom, because you already have it as I already gave it to you. Desist from abusing this freedom so that it may be a blessing to you.*

ASHTAR SHERAN said the following thereto:

A considerable mistake is made in the assessment of freedom. Freedom is as sacred as GOD is sacred. It is therefore not an agreement. Freedom is however bound to a divine LAW, namely the LAW of JUSTICE. The moment this LAW is trespassed against, freedom immediately stops. But as freedom is as sacred as GOD, it is attacked and ridiculed exactly the same way.

Atheists look upon freedom as a form of negative energy. They only know the kind of freedom that allows them to undertake whatever their will or the will of another (negative) intelligence prescribes, even if it is directed against CREATION'S PLAN. The concept of freedom is therefore differently interpreted by atheists than by religious people; the latter prefers to abide by the divine LAWS. The atheist on the other hand only accepts the terrestrial, national legislation.

The divine LAW on the other hand applies to every human being, well actually to all humanities throughout the universe. Due to the free will decision making endowment, they can be trespassed against like any other national law, *but not without dire consequences.*

The repercussions reach far beyond one's physical existence.

The UNIVERSAL COURT is incorruptible!

Divine TRUTH is therefore no fantasy, no mistake, no superstition and no philosophy, but a question of conscience, one the atheist is not happy with and one he would like to avoid at all cost. This is the reason why the ungodly justifies his behaviourism with the "Diamat" (Dialectic Materialism) and distances himself with unequalled fervour from the generally applicable objectivity and TRUTH.

I look at all questions in the light of an unfolding spirit. I see in people *a spirit* that endeavours to express itself through a physical body. I however see millions whose spirit is *constrained, stifled* and *trodden underfoot*. Well, I see many that have to live under oppression and I know that it is *wrong* for the spirit to have to live in captivity.

The spirit ought to be free. The spirit ought to radiate with the sun-like brilliance of KNOWLEDGE and all noble characteristics ought to be expressed *automatically*. True freedom is the ideal and it depends on the development and unfoldment of the individual. For as long as you are not in possession of the key that leads to KNOWLEDGE, your concept of freedom remains paltry and I can tell you that you *are* aware what *true* freedom is all about.

Once you become *aware* that man is a spirit, you will also become aware that everything within your world that tries to hinder this spirit from expressing itself is wrong. Those that try to suppress the spirit in others must have the power to do so taken away.

True freedom is however not the kind of freedom that allows everybody to do as they please, to engage in every fancy, every caprice or that one can indulge in any proclivity. Freedom demands a high degree of *responsibility* and *understanding*. The reason why every human being is here on Earth must also be recognised.

- *It is your assignment to be co-operative, to live a life of service – and to help one another.*
- *Those amongst you that develop special gifts have to share them with those that do not possess these gifts.*
- *To help those that are less fortunate than you.*

The spirit was created in order to be *free*, because it represents a part of the GREAT SPIRIT that created all life and therefore stands outside of all human restrictions. The spirit is only subject to the natural laws of the universe and they create the framework within which the spirit has to express itself. There is absolutely no demand for a philosophical dissertation of an unbridled freedom that only means anarchy anyway.

What I would like to draw your attention to is the following:

- *KNOWLEDGE imposes the RESPONSIBILITY on you to understand freedom to only mean the things to you that allow you to live in harmony with the natural LAWS and to help others to achieve the same results.*

One more explanation recorded via ESP<sup>2</sup>: When the freedom of independent action is interfered with or forcefully suppressed, freedom has to fight back – and this always results in war on this Earth. War represents the opposite of freedom. As freedom is however part of the divine, war, as its opposite, must accordingly be part of the demonic. War provides GOD'S antagonist with the most powerful and effective weapon. War makes it very easy to destroy sensible creation, ergo the likeness and instrument of GOD, through murder and with all available means of inhumanity and cruelty. War always utilises the best and greatest inventions. We are dealing here with the human support for Satan with the help of man's highest accomplishments and intelligence. This represents a complete abuse of the divine intelligence GOD endowed man with for *sensible* purposes, that is to say entrusted with, and this is a blasphemy of the highest potentiality!

- *Those that infringe upon the freedom of their fellow man turn into a dangerous instrument in the hands of satanic forces.*

Freedom is *not* here to make political propaganda with. Freedom is a theological fact, it is absolutely sacred and it is *symbolised* by the wings of an ANGEL. Freedom equals *world peace*. Well, actually more than that! Freedom means: *DIVINE UNIVERSAL PEACE!*

---

<sup>2</sup> ESP = Extra Sensory Perception.

One further explanation from the SPHERES of LIGHT in regards to this:

The general ignorance in regards to the human existence has led to a situation where freedom is being enslaved to the highest degree. The GREAT PLANNER'S antagonist utilises all nation's masses, he utilises all means of communications including telepathy in order to dominate the masses. – He knows that he does not have to trouble himself too much with individuals, because without forming their own opinion, they run with the masses anyway.

From communicating with the help of jungle drums to the most modern rotation machines, inclusive television, all communication channels are under the direction of the inflammatory demonic forces without the ignorant really being aware of it. Hellish negativity however determines the course of current events.

The GREAT PLANNER is however powerless against this, because HE abides by HIS OWN LAWS and also because HE gave human beings on this Earth *absolute freedom of thought and action*; HIS LAWS do not change.

People certainly receive sufficient warnings from the regions of their otherworldly existence. But whether they take these warnings serious or whether they even listen to them and act accordingly, is absolutely left up to them.

- *All sins arising from the abuse of freedom must be accounted for by man, partially already during their earthly existence, but absolutely in man's EMINENT EXISTENCE within the otherworldly regions.*

There is only one opportunity to defeat this dangerous and hardly comprehensible power and this is with the help of the insights you received from the spiritual realm, namely only through a genuine, fully responsible brotherly love based on the most eminent INSIGHT.

- *The kind of freedom nations are promised by their leaders doesn't exist, it consequently degenerates into intemperateness and disorder. Just because everybody does as they please doesn't mean that we're dealing with freedom, it is actually the beginning of chaos.*

ASHTAR SHERAN continues:

We naturally also possess this GOD given freedom. Based on this freedom we *could* easily ambush and completely destroy the Earth. It would even suffice for us to undertake a *low level* flight across Terra's surface with a couple of mother-ships. A version of teletecon would make all buildings fall down. This is no fantasy, but it should also not be regarded a threat.

- *All I can tell you is that freedom must be controlled by rationality, otherwise it can turn catastrophic. Rationality is the break that stops intemperateness from running amok.*

If your leaders on Terra would apply absolute freedom, a catastrophe would be just around the corner.

The people on Earth however still rate fear *higher* than freedom.

Our restraint is not a sign of weakness! One cannot simply murder and destroy because there are people that are still in the midst of their development. Therein lays the difference between you and

us. We have been observing your development on Terra for millennia and we exerted some influence on you every now and then.

I say to you:

- *If terrestrial despots were not aware of our existence, a nuclear war would have annihilated everything long ago.*
- *We know that you look at our spaceships with envy. If you possessed them also, you would wage a super war according to your likes and dislikes.*

The majority of the people on Earth are still pretty dumb and their thoughtlessness is impossible to describe with words. The masses have no idea about their own *true* existence. The masses believe that complete nothingness awaits them after their demise. All human beings find the word ETERNITY incomprehensible.

And then there are innumerable *fairytale books for adults* written by psychologists and professors. There are people on Earth that gain fame and fortune on the back of the greatest nonsense imaginable, because they trample freedom underfoot – and because they find enough people who share their thoughts.

Even though we are *constantly being shocked*, we display divine patience, because we know that the CREATOR is *also* very patient with you. GOD'S patience is however also not a sign of weakness! Who would attack and destroy their own CREATION?

There is one thing that I cannot comprehend and I would like to receive an answer soon:

- Why do you continue to differentiate between your own people? Why don't you recognise that the people of other races and nations are also *human beings*?

Our slogan is:

*Stick together in order to survive!*

We might be well advanced of you, but we have not forgotten our own past in spite of this. We were able to master the difficulties we were confronted with by sticking closely together in order not to fall prey to hell.

This is why I say to you:

- *Unite in friendship in order to survive and in order to not fall into the hands of GOD'S mortal enemy. – You have no idea what this actually means!*

Have you still not comprehended your schisms and segregations? Satan's machinations are very successful in your case, because you are being convinced that the devil is only a fairytale figure.

What a magnificent life you could lead! – Your planet could have joint the INTERPLANETARY BROTHERHOOD long ago, but the devil is *against* it, because *he wants to have dominion over* this planet we call Terra. We had to realise thousands of years ago that the people on Earth are a difficult race to educate. – Communicating with you might be difficult, but it is a lot easier these

days than in the past, because your present day progress at least offers the opportunity to disseminate our messages.

The word freedom should however not be used to advertise party politics. Order is lacking – and your custodians of law and order do not have the required powers, because they deal with it in different, various ways. Terra does not require a military force to destroy other nations; it requires an *international police force* that is guided by *international laws* that apply to all nations on Terra *equally*. A criminal in one country is also a criminal in any other country. Negative people must be *treated* and accordingly regarded negative people everywhere. I am aware that you don't want to listen to criticism, but criticism is the *best means* available to us in order to help you.

## Your Earth

The circle leader Herbert Viktor Speer writes:

The difficulties in communicating lie with asking questions. It is a lot easier to receive a random message from extraterrestrials via ESP than to receive an answer to our questions. The communication taking place during a UFO contact is therefore rather one-sided.

It is easier in a séance. We can ask questions here, because the questions are answered by SPIRIT ENTITIES. For the uninitiated to imagine such contact it is impossible. This is the reason why journalists do not take genuine contacts serious.

The situation in the nations behind the Iron Curtain is a lot better. Research into ESP, generously supported financially, at least offers the assurance that genuine contacts are taken serious.

We call contacts that are the result of *spiritual hoaxing* apocryphal. Science fiction fantasies are also a part of this. Hardly anyone can imagine just how difficult it is to disseminate the messages coming from extraterrestrial contacts.

One of our brochures states: "From our point of view, pornography is smut." After reading this, the female leader of a UFO study group wrote to us saying: "This is something you must have come up with yourself, because an extraterrestrial would never express himself like this."

ASHTAR SHERAN once told us:

*"I am forced to speak your language in order to be understood at all!"*

What kind of phraseologies should the SANTINER utilise? Highly developed extraterrestrials do not speak prosaically when they draw our attention to our shortcomings. Their criticism is justified, because it is supposed to induce us to come to our senses!

ASHTAR SHERAN continues:

*"The difficulties languages represent are our problem. Even if we were to use common expressions in order to be comprehended by common people, it would only be a mild form. Because your language in such cases is total warfare, something you believe to be the only language opinionated and unteachable nations understand."*

Whether the SANTINER are correct or incorrect does not require an explanation, because when they give us a piece of their mind using harsh words, there would hardly be anyone who could doubt that the SANTINER are correct.

One generally assumes that a journalist is a relatively educated person, one that is well versed in almost all fields of knowledge. A lot of interviews have however verified that this assumption is incorrect. We were for instantly told: “We don’t require any experience in regards to our reports, because we only report the things we hear. We also don’t have to be actual witnesses of events.” – The result of this is that newspapers will give a false account of the facts.

There are *actual* extraterrestrial visits and there are *actual* extraterrestrial contacts, ergo communications, without the help of a super-complicated apparatus. The abundance of our considerable number of publications verifies that we receive genuine information and indoctrinations. There is however not a lot of money to be made from *these* reports. Science fiction fantasies are more popular!

We had a conversation with a messenger and asked him what he thought would happen if the whole world press would admit that the Earth was visited by extraterrestrial spaceships. The answer to this was: “Some kind of panic would surely be the result. Everything would turn into disorder because people’s trust in their leadership would then immediately disappear.”

We also asked him what he thought would happen if the whole world press would admit that people were faced with a *responsible* existence after their demise. The answer was: “This would unhone everything. Civil wars might break out all over the world.”

You can now understand why the TRUTH is supposed to remain a secret. Everything to do with the divine TRUTH is supposed to remain taboo and one guards this taboo enormously rigorously. Part of this taboo is the insight that a life in the spiritual world, REINCARNATION and EXTRATERRESTRIAL SPACESHIPS, are a reality. All acts of derision and contempt directed at these facts *are allowed* and *even encouraged*.

Wisecracks say: “If one does have access to such a source and contact with such highly intelligent entities, one should approach them entirely differently in order to squeeze them for information like a lemon.” - Surely nobody could be dumber than this! – No country in the world would reveal its secrets to a spy so that this spy would gain the same enormous powers a country possesses and preserves.

ASHTAR SHERAN had the following to say about this:

*“We could undoubtedly tell you more than we do. It is however not our intention to endanger our mediums. We know that the powerful on Terra do not hold back when it comes to such things. The powerful on Earth are to blame for all these types of accidents.”*

We have been asked why we don’t try to find out the secrets in regards to gravity. One could surely make a lot of money out of it.

ASHTAR SHERAN:

*“The secrets in regards to gravity are of enormous importance. We have applied it to manipulate things on Earth, but once the people in the past gradually realised the consequences, lives and property was lost. Atlantis is the result of such a catastrophe! We have since refrained from revealing the laws of natural science for as long as people are not mature enough to deal with them correctly.”*

Money represents the greatest power on this Terra. Those with money rise in the esteem of others, but their character is ignored because one is either in fear of them or one wants to partake of their riches. Money provides the means for every war!

There is no difference between money in private hands or in the hands of governments.

### **A talk by the universal teacher ASHTAR SHERAN:**

Of all the planets I am familiar with, it is this Terra that represents *the greatest problem*. Even GOD finds that this planet is a great problem, because here is the head office, ergo the *antagonist's headquarters*. But the antagonist, who would like to seize control of the whole regime, plays a game of secret science the whole world falls prey to.

- *The devil is not a personality, but a powerful consciousness that influences and controls billions of people.*

Mankind on Earth is confronted with a problem it is unable to solve by itself. When a family has a problem child, it is expected that the general public helps instead of beating it to death. Moral laws demand this. But if there is a *problem child* within the *global family* that consists of *many* nations, the general public wouldn't think for a moment to help this problem child, one prefers to attack it thereby instigating a bloodbath. *Demonic* law demands this and it is willingly abided by. Complying with demonic laws is a costly affair, because this costs more than if one had abided by moral laws.

This is certainly not a modern trend, because this has been so for millennia!

- Terra is a *special planet*, because this planet serves the development of *fallen* souls that reincarnate over and over again thereby making unbelievably slow progress, but with no prospect of ever being able to get away from this planet.

We ask ourselves, what would be the reason for this?

We ascertained to begin with that planet Terra is – as far as we know – UNIVERSAL MANKIND'S only problem child. This is why we endeavour to help you, but not *the way you would* through attack and murder. We thereby want to abide by *moral* laws. One however only expects that the problem child is put to death, because you know of no other solution and you have never ever learned another solution. *Sodom* and *Gomorrah* is not an example, because *Sodom* and *Gomorrah* was just an operation.

Terrestrial progress can only take place little by little, because terrestrial laws are mainly based on *negative* assessments and aberrations. Erroneous knowledge naturally produces an erroneous

assessment. To put it in a few words, we are dealing with the following and this requires no detail explanations, because you have been aware of this for a long time, but negative people always *dismiss* and dispute this:

- *Mankind on Earth has remained far behind all the other humanities throughout the universe.*
- *The individual person remains perpetually an individual, meaning that its soul is immortal.*
- *The creation of this soul took place eons ago.*
- *The physical body represents a parallel entity to the soul and it has an interrelated relationship with the soul.*
- *Religions on Earth are false and they do more harm than good as they are not capable of furthering the progress of the people on Earth.*

A lot of people might not like the facts I am providing you with, but there are things like wars for instance, one doesn't spent time thinking whether they are palatable or not.

Your Earth ended up in a blind alley you find impossible to escape from of your own accord.

People certainly do die, but at the moment of death their spirit becomes unimaginably lively and mentally active; it can then remember *everything*.

- *Particularly one's memory represents punishment for a life lived in vain!*

People that are true to their respective church have *even less* prospect of going to a heaven that doesn't exit at all the way one imagines it to be. If there was one human being amongst you that believes to be good, he is mistaken, because this is only hypocrisy and arrogance in our eyes. Nobody should boast about something that is and should be a *natural* human trait!

People should not exact revenge, even though they might have reason to do so, because revenge only brings misfortune to one's soul. We don't exact revenge, even though we would have reason for it. You have no idea about the negative things you have already done; they make your own planet suffer. *Your Earth is in danger!*

One makes fun of GOD and HIS realm all over the world. There is absolutely no reason for such behaviourism. You have a beautiful planet endowed with many, many treasures. This certainly is no reason to deride the CREATOR! – Serious researchers, those that endeavour to find answers to real secrets and even risk life and possessions, are ridiculed and exposed to the guffaw of the world at large.

Is this your spiritual progress?

Which government protects those that fight for the TRUTH?

The wealthy of this Earth scrupulously grasp for power. They take pleasure in seeing the poor and less fortunate having to grovel. The powerful on this Terra however do not economise when it

comes to making promises. The people on Earth are allowed to learn everything *but the TRUTH*, because it could *threaten* the position of the powerful. This is the reason why mankind's leaders have the sciences on their side; they may say whatever they want to say, but they have to refrain from telling the TRUTH about what human beings are all about.

- *Those that know the TRUTH lose their fear of the powerful.*

There is no other place throughout the universe that has as many iniquities as this planet!

When something dissolves completely it initially splits into many pieces to then gradually disintegrate altogether. You have arranged your politics and styles of government according to this law of nature. The constant changes within the ranks of mankind's leaders confirm this. A terrestrial proverb states: "Too many cooks spoil the broth." Why do governments require political parties in the first place? Is it so they have an opposition restricting their powers or spoil their endeavours?

When an eminent member of parliament is sworn into office, one does not have to evoke GOD'S blessing, because the ungodly are also allowed to hold office. During such occasions, *we* on the other hand vow that we possess the INSIGHT that we have a formidable CREATOR we are  *beholden to* with body and soul, because HE represents the HIGHEST AUTHORITY.

- *Those that feel ashamed in the sight of GOD do not feel ashamed in the sight of their fellow men and they occasionally become quite dangerous.*

You always *favour* academics. They are always portrait as being members of a different race of people. Without taking ability and achievements into account, these people actually believe that they are something special. Their scholastic training unfortunately shows an enormous gap, namely the DOCTRINE of the HUMAN RACE, from its origin to reincarnation. In spite of possessing this enormous gap in their knowledge base, they are still unscrupulously let loose amongst their fellow men.

We find this incredible! – We are shocked to the core!

The so-called Iron Curtain nations try to gain control of this KNOWLEDGE in order to dominate planet Terra.

The circle leader Herbert Viktor Speer writes:

UFOS are not just observed in the western hemisphere, but in equal numbers also in eastern countries like for instance the USSR. But instead of giving silly explanations, one prefers to remain silent in the Soviet Union. Soviet Russia is engaged in quite an extensive UFO research program that enjoys state support. The results of this research however remain secret. It is however no secret that Soviet cosmonauts have spotted "flying saucers" from their space capsule. The Soviets do not reject this problem, because they are not of the opinion that the impossible is impossible. The Soviet scientist *Dr. Ziegel* shows a particular interest in this problem. He is their leading light in regards to UFOS.

It has come to our attention that the Soviets undertake many tests by applying ESP in order to establish contact with extraterrestrials. They unfortunately have no *direct* communication system. The *Psychic Peace Circle* established such a communication system during the last 20 years of our

UFO contacts. Due to lack of experience, scientists are baffled about the way we accomplish this. To give an explanation is impossible, because we want to avoid abuse in the first place and because we find it financially impossible to carry this out in the second place. In spite of many translations into foreign languages, we have never ever seen one single Dollar for our UFO activities. All publishers have so far reneged on their promises. The ASHTAR SHERAN messages are however sold and appreciated throughout the western world, well even discussed on television.

- *UFO contacts cannot be forced. It is quite impossible to determine a specific time when such a contact should take place.*

We certainly receive great help from the otherworldly region, even though this type of communication is still very controversial and even derided. Communications with the hereafter have however taken place for thousands of years – Even CHRIST was well versed in them.

**Luke 9; Verses 28 – 31, 34 - 35:**

About a week after he had said these things, Jesus took Peter, John and James with him and went up a hill to pray. While he was praying, his face changed its appearance and his clothes turned a dazzling white. Suddenly two men were there talking to him. They were Moses and Elijah who appeared in heavenly glory and talked with Jesus about the way in which he would soon fulfil God's purpose by dying in Jerusalem.

While he was still speaking, a cloud appeared and covered them with its shadow and the disciples were afraid as the cloud came over them. A voice said from the cloud: This is my son, whom I have chosen – listen to him!"

This was a UFO contact, we are however *not* dealing with *Moses* and *Elijah* here, but with two SANTINER, who talked to CHRIST. The "cloud" was without doubt a spaceship. All spaceships in those days were called a "cloud", because they hovered and had the shape of a cylinder. There are a number of indicators in the bible; it also represents a historical document of extraterrestrial visitors. Our *present day* contacts also verify that we can talk to the SANTINER.

But it also states:

**Luke 4; Chapter 24:**

"I tell you this", Jesus added, "A prophet is never welcome in his home town".

CHRIST also maintained *automatic writing contact*. He often bent down and wrote words in the sand before he answered. We also utilise this psychic writing tool. This allows us to compensate for the great difficulties of communicating with the other side.

During a verbal UFO contact one's *pulse is reduced down to about 40 beats per minute*. One's *breathing is also reduced to a minimum*. One's own consciousness is fully operational. The sentences thus received are clearly comprehensible in spite of this. After the contacts, that can last for different periods of time *but never longer than 2 hours*, a *huge drain of energy* take place and it will only be restored after a few days. Psycho-kinetic mediums can accelerate their pulse up to 200 beats per minute. The power of *telepathy* is a lot greater than one assumes. Distances involved are as good as nonexistent.

CHRIST was without doubt an excellent medium and the SANTINER also made good use of it.

Our ESP research circle has also been mobilised by the SANTINER to communicate with. The mediums have been excellently trained by otherworldly SPIRIT TEACHERS. This is why we remind you of the biblical words:

“He’s the one, you should listen to him.”

When the spaceship’s loudspeakers announced: “This is my son, whom I have chosen – listen to him!” they indicated that CHRIST was more than a good friend.

This is why we proclaim ASHTAR SHERAN’S words that say:

“Listen to my mediums; they are my means of communication! They speak my words. We proclaim these words on behalf of a DIVINE MISSION.

Your Earth is in danger!

Your Earth is sending a SOS signal to the universe.”

### **ASHTAR SHERAN speaks**

PEACE ACROSS ALL FRONTIERS!

With infinite patience we achieved that a *number* of people on Terra listen to our words. The situation is *a lot more difficult* than at biblical times. We were then not capable of destroying the whole Earth within a few hours. The situation is different today. We are indeed not afraid that something could happen to us, but we can well imagine what could happen to *you!* – This is the reason why we proceed very carefully and restrained. But to know that such a great and beautiful planet could be destroyed any day, puts a lot of pressure on us. We cannot desist from carrying out our intensions. The way to common sense must be paved with our help.

We show ourselves daily in the sky.

The whole world discusses our spaceships.

But one wants us to land in order to negotiate with your leaders. –

### **Impossible!**

Who would want to negotiate with hell? – Taking your mentality into account, such negotiations would lead to a terrible world war in a very short time. We also do not intend to demonstrate tricks of destruction to you in the form of a manoeuvre. We hold sway over *gravity* and also *anti-matter*. Either one of these have been placed at Terra’s disposal in the past. As we have however already been abused by you, we have withdrawn, taking these forces with us.

But woe to you if we had to go to war with them!

We are naturally interested in communicating with the people on Terra, but there are unfortunately only *very few* venues qualified for this.

Question : What circumstances *prevent* better communications with you SANTINER?

A. S. : There is a mutual mistrust between us. Apart from this, the moral-spiritual development of mankind on Earth is *very backward*. If you had the opportunity to look at your world the way we are able to, you would be appalled. Enormously important facts that could make your human existence really interesting and beautiful are simply dismissed as nonsense with the wave of a hand.

We cannot comprehend how allegedly educated and learned people, calling themselves “professors” can, filled with arrogance, derisively laugh about serious scientific processes. There is for instance *magic*, it is the crowning glory of all the sciences. Why is it completely rejected and depicted as gross mischief or pathological nonsense?

- *We would be unable to bridge the enormous distances between our worlds without our insights into magic.*

Even man’s mental existence represents a *substantial part* of magic, but doctors and biologists in particular dislike the word magic.<sup>3</sup>

Question : You said that Earth is in danger. What kind of danger?

A. S. : I don’t just mean a total war with nuclear weapons, but also the *general destruction of vital living conditions* like for instance the atmosphere, water and specifically human mentality.

Question : UFOS represent something mysterious to most people. Why all this secrecy?

A. S. : No person on Earth knows all of their fellow human beings. We have however a relatively good insight, something that is beyond your reach. This gives us all the more reason to not get involved in the overall situation on Terra if at all possible. If we were to try to make *direct* contact with you, we would find that this would not be feasible. The general assessment of our existence is *entirely negative*. Even if we were ANGELS, we would still be regarded people’s enemies.

You can hardly imagine the things that are *lied about* on this Terra. In addition to this are all the *secret preparations* the public never hears about. Murder and killing are the order of the day as well as all other conceivable brutalities. To put it in a few words: Planet Earth is an extremely dangerous place, particularly for those that are willing to help. Everything positive is immediately attacked and everything negative finds acclaim and support. The fact that I have to say this is a sad situation.

Question : Do you believe that there will be a war to end all wars on Earth?

A. S. : We have been interested in planet Earth for millennia. We are therefore well informed in *every* respect. There is nobody on Earth that could be as well informed as it is possible for us. The things our senses cannot grasp are recorded by our apparatuses.

---

<sup>3</sup> The fact that parapsychology selected the word “*PSY*” (from psychology) for ESP processes represents an advancement, because *spiritualism* and *spiritism* have been unjustly derided for too long.

- *We possess measuring devices that are capable of registering the general thought-processes of the people on Earth. We are able to read from these devices whether and where negative or positive thought-processes are present.*

Question : And what is the general result?

A. S. : Unfortunately predominantly negative. Even measurements taken over universities and colleges show a horrifying result. We register a terrible godlessness.

Question : How is this possible? We have after all a lot of churches and large religious communities.

A. S. : All of this piousness is not governed by RESPECT or the TRUTH, but by *cults, habits, traditions* and a penchant for *the fantastic*. The Earth does not have to fear a super-war; *it is already raging* to its full potential. A creeping war, waged from behind the scene with all possible baseness just the way the antagonist likes it, is even worse than a war waged with deadly weapons. The so-called BATTLE of ARMAGEDDON *is in full swing*, but how many people show an interest in such a formidable and secretive WAR, one that isn't just global, but universal?

Question : What could you recommend to us to remedy the situation?

A. S. : Your proverb says: "Good advice is expensive." – Godless leaders without respect for GOD and without knowledge about themselves occupy *the top positions within your world's societies*. – *The top positions within your religious centres* are occupied by irrational people made dumb by religious delusions and they regard the greatest nonsense as miracles. The followers of these leaders of humanity and spiritual leaders are not allowed to voice their opinion; otherwise they will lose their positions or are persecuted and aggrieved in every possible way. It is therefore very difficult to give correct advice under these circumstances.

My personal advice to you would be, and this might shock you, to stop all this incredible nonsense. Change your religious nonsense and *concentrate on the facts*. Please remove all the things that do not pertain to the present from your books.

But do not remove the belief in a CREATOR that *actually exists* even though you are still too dumb and too inexperienced to comprehend HIM. You can't even comprehend magic. You trip over your own thought processes by saying: "Thought is the prerogative of matter!"

- *Thought is man's divine inheritance! Thought, as well as one's whole consciousness, is what gives all human beings throughout the universe their LIKENESS to GOD.*<sup>4</sup>

---

<sup>4</sup>ASHTAR SHERAN indicated just how important parapsychological experiments really are. Research into *magic* is naturally a part of *PSI-Research*. But why is this research such a secret that the public hardly ever hears about it? No nation on Earth would be interested in it unless there was a chance that these enormous spirit forces could possibly utilised in warfare or world domination. This is the only reason why millions are placed at the disposal of this type of research. There are a number of centres that deal with *PSI-Research* the way we have been doing this for more than 20 years. But no nation is interested in the results of our research, may it be ever so good, because no nation is interested in divine indoctrination. Evidence of the survival of the soul after death and its associated responsibilities for all thoughts and actions on Earth is absolutely undesired and it stands in the way of the interests of those in power. We do not provide a placebo for those in government and all those wiseacres on this Earth. But if our research would provide information that would enhance the powers of these people, one would surely support us, but also

Question : How do you see things develop from here on? What do you want to undertake?

A. S. : We are very well aware of what this condition ails from. We know its causes. This is why we endeavour *to get rid of* the causes. If we are successful, the way for advancement is clear. The causes are prejudices as well as complete erroneous information in regards to HIGHER KNOWLEDGE. There are still too many people on Terra that say: “*This is beyond my comprehension.*”

### **Obstinacy reigns over this world** (A talk by the universal teacher ASHTAR SHERAN)

There is something mankind on Earth seems incapable of comprehending, namely *reincarnation*. It isn't taken serious even though it applies throughout the universe. The people on Earth however still lack spiritual advancement. Almost all people on this planet have returned over and over again; they never reached any other universal levels. This is very regrettable.

I cannot comprehend how the churches have managed to delete the *doctrine of reincarnation* from the bible and how they can continue to ignore it. This is also very regrettable; if this wasn't so, mankind would at least have recognised *some sense* in the human existence. – But obstinacy reigns over this planet. Nothing is capable of removing this obstinacy from your world. Even the most bitterly fought wars are due to obstinacy and innocent people have to suffer the consequences. There is not one area where obstinacy doesn't play an important part; it is *traditional*.

- *Take time out to contemplate this obstinacy. It stands not far behind fanaticism and it is just as negative.*

Scientists provide a good example: Out of obstinacy they close their minds to spiritual insights; due to their obstinacy they shy away from higher insights.

- *Obstinacy stops politicians from resigning.*
- *Obstinacy makes one hold onto to prejudices.*
- *Obstinacy results in costly court cases.*
- *Obstinacy destroys marriages and families.*
- *Obstinacy maintains and expands the Berlin Wall.*
- *Obstinacy makes one stick with armament.*
- *Obstinacy stops one from admitting one's shortcomings and encourages one to find excuses.*

I could continue this list, but it wouldn't change anything. Obstinacy is extremely pronounced and no philosopher or great thinker has ever given these dangerous, negative characteristics any thought at all. No judge ever ascertains that a marriage broke down *due to obstinacy*. No politician ever thinks about it, they don't even notice it, because they suffer from the same immaturity of the

---

put us under surveillance accordingly. – ASHTAR SHERAN and his SANTINER do not come to us in order to support us in a negative way! The MISSION of the SANTINER is an experiment designed to open our eyes and to show us the error of our ways. The public at large is not enlightened enough, it is still completely ignorant, well actually very occult. It might come to pass that ASHTAR SHERAN will become the founder of a religious here on Earth.

spirit.

Every war is waged because of obstinacy!

Whenever a major conference is held, we SANTINER *already* know *beforehand* what the result will be, because we know your obstinacy.<sup>5</sup>

We know that the USSR does not like the term “GOD”, but the name is ultimately immaterial. Even the most eminent scientist will not be able to deny that an enormous POWER exists and reigns over mankind.

When a person dies on Earth, he or she will end up in the spiritual regions where other people live amongst one another in spirit and where they have to get on with one another. However the people from Earth can be *identified by their obstinacy* even in these spiritual DOMAINS, an obstinacy they are not prepared to deal with.

Due to ignorance in regards to the divine TRUTH, good will breaks down. Because of their obstinacy, the people from Earth cannot reach the great LIGHT and must, according to *the law of spiritual development*, return to the terrestrial plane. Even though they have to leave all the FREQUENCIES of their consciousness behind in the spiritual realm and are therefore unable to remember anything, well even have to establish new memories within their new existence on Earth on a new FREQUENCY, they still retain their obstinacy, because it is actually a *spiritual characteristic*. This is why man is stuck here on Earth and drags all his spiritual shortcomings and vices behind him like the tail of a comet.

- *You can believe that I speak the TRUTH; because we are the ENUNCIATORS of the TRUTH and of ETERNAL LIFE!*

Observe the children. They are still uninfluenced, new creatures, but they bring their *mental characteristics* from their previous existences *with them down to Earth* and this includes an extremely pronounced obstinacy. A child that doesn't immediately get its own way behaves in a hair-raising manner; it throws itself to the ground, tramples its feet and screams incessantly. This is not inherited or something it is born with, it is *a mental programming* that has been developing since time immemorial and it has now brought it with it.

- *This ignorance prevents people from endeavouring to improve themselves. Mankind's leaders prevent this insight from reaching the light of day.*

One's life's experience unfortunately does *not* erase this characteristic.

Generally speaking, people in leading positions have not combated, not obliterated their obstinacy. On the contrary – obstinacy represents their most powerful force of resistance and this enables them to utilise this power in an incredibly negative way. The world at large has experienced the obstinateness of authorised representatives of world powers at world conferences who simply said “no”, even though the reason for saying “no” did not make sense to any logically thinking human being.

---

<sup>5</sup> CHRIST warned mankind. – ASHTAR SHERAN also warns us. Did the MESSIAH'S messages find attention? – Are ASHTAR SHERAN'S messages given credence to? – *Professor Agrest* is thoroughly convinced that many biblical events and personalities are due to visitors from space. The Soviet scientist *Dr. Saitzew* holds the opinion that CHRIST had an implicit connection with extraterrestrials. He is of the opinion that CHRIST was a representative of a more advanced civilisation. Soviet scientists discuss whether the name LORD might better be replaced with the words: “COSMONAUT JESUS CHRIST”.

It is really a crying shame that many of the indoctrination from Mount Sinai were destroyed.

I will now make up for this omission in your development by warning you to ignore this behaviourism.<sup>6</sup>

### **Dangerous will** (A discourse by the universal teacher ASHTAR SHERAN)

Obstinacy is an important subject at school, university taught knowledge actually! You can observe obstinacy in school kids and students, but the teaching staff also makes no exception.

- Pure obstinacy *makes one envy one another's daily bread.*
- *The most horrible traffic accidents* are the result of obstinacy, because one insists on an alleged or actual right. How many traffic accidents do you think take place every day on Earth? – Almost all of them are on account of obstinacy.

Mankind complains about difficult times, about a botched world situation, but one does not find anyone to blame, one does not know why it is actually so. You have the revelation of the true causes right here:

- Obstinacy *governs your world* in all possible situations that happen to exist.
- Obstinacy never stopped the churches from *torturing people to death.*
- Obstinacy makes *the stingy hold on to their assets*, even though they have no real use for them.

*All of this could completely change in one foul swoop!*

- *Do not fight your political opponents to begin with. – Do not conduct absurd disarmament conferences. – Do not change laws, but work with all your might, with all your mind, to exterminate a dangerous will, namely an obstinacy that has plunged mankind into the most difficult and most dangerous situation for millennia.*

You have seen a large ocean liners built that demanded the world's admiration. Obstinacy reacted immediately and *an even larger* liner was built in another country in order to show the other nation just how obstinate one could be – without taking the enormous costs into consideration.<sup>7</sup>

- *Obstinacy is a trap set by the devil in whose existence you unfortunately do not want to believe in.*

There is not one religion on Earth that has dealt with this most dangerous obstinacy in detail. There is however a UNIVERSAL RELIGION that absolutely forbids obstinacy, because this unholy character trait does not allow any person and any nation on Earth or on any other planet to

---

<sup>6</sup> Contacts with ASHTAR SHERAN are seldom, but we managed to publish 21 brochures in spite of this. About 8,000 printed pages of our *ESP research* results have been published. A lot of these have been translated and successfully disseminated in other countries. The last UFO contact took place about 18 months ago (1973). Any attempt at communicating after that was impossible. One cannot simply quote extraterrestrials and spiritual circles and mediums that assert this, fall prey to negative hoaxing spirits. *These negative otherworldly beings like to pretend to be ASHTAR SHERAN, because they are aware of his eminent MISSION and by quoting HIS name, they hope to gain the respect of those that listen. Obstinacy once again finds expression. The SANTINER are accurately aware of our weaknesses and they will point this out again in the next chapter.*

<sup>7</sup> Consider the armaments race and other similar nonsense.

live in peace. Obstnacy is a will that does not allow somebody else, somebody that also does not condone a sensible compromise, to achieve the things they would like to achieve. Due to this character trait, nations, tribes and groups of people have never managed to get on with one another.

Of what use is the fact that mankind on Earth can exhibit technological successes? Obstnacy will guide everything in the wrong direction anyway. The power of obstnacy is not far behind the power of money. There are nations that obstnately adhere to old traditions that provoke the shedding of blood, even though these traditions are complete nonsense. Think of bloody vendettas! Think of India where cows are declared sacred! Ideological obstnacy drives the mob unto the streets and incites the workers to man the barricades. Obstnacy makes people adhere to an injustice even though this injustice has clearly been identified as such. – These are not just present day situations, they are ancient and over time have only *amplified* and utilised *more powerful means*.

A SANTINER, that is to say, one of us coming from the space, has a better oversight over these situations that a person on Earth. We are immediately able to ascertain these *negative* character traits, because we *do not* have these types of character traits.

I know with certainty that my words will not be appreciated in higher places, because obstnacy makes one not want to deal with extraterrestrial revelations whatsoever.

This is the reason why no church would consider accepting new revelations or to reedit or correct the bible's texts; because the obstnacy of those that wrote the bible made sure that something like this could not happen. – Negative threats made on the last pages of the bible make this impossible.

- *Mankind requires a meaningful education and a meaningful explanation about its existence.*

Your present day means make this unfeasible!

- *When somebody grows up enjoying all too much freedom, he or she has no barriers that could suppress the obstnacy they brought with them from past lives on Earth.*

The psychology is not quite right. It erroneously assumes that a child must develop its free will unhindered. Free will does however prefer to develop into baser and *negative* character traits, whilst the positive is inhibited by an unverified atheism that is the result of false religions interpretations. Children's development must be *supervised* and *guided*. This cannot be accomplished by giving them unrestrained freedom. Castigation is therefore not a mistake, but it may not degenerate into causing physical harm to the body! I say this to emphasise that obstnacy must be castigated. This stands outside of political opinions.

I have also observed that many things are generally tied in with a political philosophy that has nothing to do with it at all. Man's upbringing has *nothing* to do with politics. The pedagogue is not a politician and he may not be one either. He should not belong to a political party and should not cast his vote either. Man's education has nothing to do with neither communism nor democracy.

- *Political education must only start at a mature age, only once obstnacy has been subdued, because obstnacy does not allow adaptiveness to flourish.*

## A great TEACHER<sup>8</sup> (A discourse by the universal teacher ASHTAR SHERAN)

History lessons at schools and high schools are a dangerous thing, because terrestrial mankind's history does *not* offer archetypes of a *positive* nature as the things that are made *palliative* or are *twisted*, are *very negative* when seen in the correct light. How should an inexperienced person, one that still has a lot to learn, find out what is positive and what is negative? This judgement is demanded too often. When told that bellicose acts of war produced heroes, he will not contradict this. One would not tolerate any disaccord anyhow.

Your history books are full of heroic acts and noble magnanimousness, fighting spirit and intrepidity, even though they are identical to genocide and fratricide. They however all sing the "ballad" of the noble man, but killing, murders, pillaging, raping, gibing, torture and blackmail actually took place. All of this is *dressed up in words* that make the "noble" and "glorious" see the light of day so that the younger generation can be enthused. Our forefathers already voiced their opinion in regards to this fact, even though things of such a negative nature were still in their infancy. You can read this in the bible where it says: "GOD gave the prophet a letter to eat." You have such a LETTER right here. You should *take notice* of its content and deal with it internally.

- *What I say to you is due to a HIGHER ASSIGNMENT, one that you could never ever imagine. I will therefore desist from trying to explain it to you; because even your boldest fantasy is not adequate.*

To direct a precious message at Terra doesn't always require a Mount Sinai or a Fatima. We in Berlin have a very precious and extensive opportunity, but it is however one that we do not know how long we will be able to maintain. I concentrate my discourse as best as I can. The required mediums (intermediaries) have been trained by HIGHER INTELLIGENCES and EXTRATERRESTRIALS for more than 20 years so they can be correctly and flawlessly utilised.<sup>9</sup>

A change for the better on this Earth *cannot* be achieved through sociological or political changes. All attempts would not just be futile, but they would *even worsen* the situation. This humanity requires specific KNOWLEDGE that cannot be found in any of your books. Healing this illness on Earth is *only* possible through the spirit and *never* through politics. Aberrations can only be rectified with the TRUTH and not through more aberrations!

We welcome the development taking place here on Earth that increasingly takes our spaceships more serious. Our spaceships do not turn up here out of pure coincidence; they are not a creation of Mother Nature. These flying objects were developed and built along technological lines. They are manned and controlled. A spaceship has no meaning to you if it is unmanned and if it can't tell you that it comes from a star system you're familiar with.

As I have mentioned – we are *not* obstinate – and this is *why* we keep our distance because we don't want to force anything on you, not even a new faith. We do however want to *activate* your logic and your common sense. You must awaken from a pernicious sleep. You must be encouraged to activate the other half of your brain. Something within your brain lays fallow that

---

<sup>8</sup> Great prophets lived in antiquity that were also great teachers. They received their information from the cosmos that is intelligently populated.

With the help of ESP, as it is called these days, it is possible to access or to gain the cooperation of the thought-bearers of otherworldly entities. But the thought-bearers of extraterrestrial entities with an even higher level of intelligence that we can muster, can be questioned either telepathically or through automatic writing means. The SANTINER ASHTAR SHERAN is undoubtedly a great teacher of real eminence. Very precious information and doctrines are due to HIS cooperation.

<sup>9</sup> Distinguished scientists in the USSR tested a number of mediums that worked within the field of telepathy. These scientists admitted that: "If we were not physicists we would find it nearly impossible to admit that the human brain is capable of such miracles. We never thought something like this possible in the past."

has lulled your capacity to think to sleep.

*I repudiate every leader who smokes or drinks!*

Not even the slightest amount is admissible for any leader of the human race unless we're dealing with medicine. A smoker or drinker curbs his conscious processes; he dums his mind without realising it. One cannot expect objectivity from such a person; they should naturally resign from such a responsible position *of their own accord*.

- *Those that believe that this Earth no longer concerns them after their demise are hugely mistaken. On the contrary – you will be surprised to find out just how much this planet will still affect you after.*

Remember my words after death has caught up with you.

The Earth will still encumber you even in the spiritual regions, but you will *have to return* to face a so-called “sticky end”. A “sticky end” you *prepared and created for yourself* since time immemorial through a constantly growing intolerance towards your fellow men, even against the masses.

*No person lives completely on its own!*

### **The TRUTH about negative complexes** (Transmission from the SPHERES of LIGHT)

Well, one hears from all sides that this or that person suffers from a complex. Psychology endeavoured to get to the bottom of all these many complexes. One mentions *repressions* and *constrains*, *inferiority complexes* and *anxieties* and other deficiencies of the human personality. It is of course quite natural that the spiritual realm looks upon and assesses these complexes differently than terrestrial psychology. This is why I will tell you how the hereafter looks upon and assesses these complexes:

- *Almost all complexes are negative, because there is something wrong.*
- *Complexes are the result of abnormal behaviourism, a disorder within one's inner equilibrium and harmony.*
- *This is why most complexes stem from discontentment; which is really quite dangerous.*

Psychology tries to get to the bottom of this with the help of *depth psychology* and the interpretation of dreams. This is however not the right approach. Psychology will find the REAL reasons exactly where we found them, namely in people's negative behaviourism: *secrecies*, *lies* and other bad character traits trigger disorders within one's CONSCIENCE. It comes as no surprise then that people become insecure, act constrained and behave distrustful towards their fellow human beings. Particularly discontentment and disharmony can develop into complexes. But the uncertainty in regards to death and survival after one's demise also applies in many cases. This uncertainty causes fear. One should primarily trace one's negative character traits in order to find the reasons. This approach will bring quick results.

- *If the patient is capable of strengthening and controlling their will power to a degree where they are able to recognise and combat their shortcomings, the complexes will diminish.*
- *Complexes are really nothing more than the result of bad behaviourism. Those afflicted with complexes have no reason to brag about them or to even regard them a kind of illness. – These are character defects and they take immediate revenge.*

Spiritualism (psycho-scientific doctrine) represents a HEALTH SOURCE of *extraordinary importance* if it is *positively* dealt with. The growing preparedness to improve oneself as well as the knowledge of the actual permanent existence of the human soul with all its talents, with all its knowledge and one's complete consciousness beyond one's physical demise, reduces *any* discontentment and also ousts all kinds of complexes. Those that suffer from complexes suffer because of their character traits and their constant discontentment with their own self: It might be their beauty, respectively their looks, that mortifies them, but it can also be the desire for unattainable things. Hatred also leads to dangerous complexes if this hatred does not find the victim it is looking for.

Human beings have no reasons to feel inferior. Even an amputee is still a valuable member of society if he *correctly looks* at his actual existence. This also applies to the blind and those with other afflictions.

- *An otherworldly soul is a full-amputee that death actually amputated, but that is no reason whatsoever to allow feelings of inferiority to arise.*

Terrestrial medicine and psychology must tread new paths to implement people's recovery. However when it comes to complexes, any *weakness of character* has to be dealt with. People afflicted by complexes must be guided towards better insights. Even a person that is severely afflicted by this kind of thing can be instantly healed, if he *recognises* his own negativity and if he is *willing* to energetically combat it. You still lack the ARCHETYPE of a *real* human being.

### **The highest responsibility** (A discourse by the universal teacher ASHTAR SHERAN)

What would people be without a feeling of responsibility?

Their feelings secretly tell them that there is such a thing as responsibility. There are however a lot of people that forcefully *suppress* this feeling, because it interferes with their thoughts and actions, their progress and thirst for power. Certain politicians are particularly talented in this regards. Just where do they find the courage to deceive themselves in this manner? – Well, certain processes can be studied extremely well if one stands in spirit next to the person in question or if one is in possession of excellent telepathic apparatuses that record everything.

Political atheism bases itself on a scientifically *disguised* philosophy: Namely a *Dialectic Materialism* that has never been verified by anything, but only developed from assumptions. It obtains its alleged wisdom from observing Mother Nature. According to this wisdom, Mother Nature seems very ruthless and cruel and only the stronger and more ruthless do survive. Only constant revolution makes progress possible. Man therefore has to act according to the way Mother Nature acts. Man must defeat the weaker and may treat him cruelly, because this is what takes place in the fauna around him. – He, who contemplates this in detail, immediately recognises the nonsense involved here. Well, one cannot defeat the more powerful. But going into

battle against a weaker opponent is already inhuman enough.

- *Animals do not have man's power of reasoning and man may therefore not compare his mind to that of animals. – Animals also do not have the same responsibilities that people have!*

An animal knows nothing about GOD. But in order to have the animal kingdom as an archetype, the Dialectic Materialism discards GOD, thereby also discarding their most eminent responsibility. – Political atheism is aware of these things, but it deludes itself because certain doctrines dictate this.

Dialectic Materialism proclaims:

“Consciousness is a physical process – and there is no consciousness without matter, it is tied to matter.”

This is absolute nonsense and nothing can verify this, it is simply idle party talk designed to take the responsibility away from people.

ESP research in the USSR and its satellite states established in the mean time that thoughts are not tied to matter, that they actually totally ignore it. This rendered the scientific evidence that the much vaunted materialism is an absolute aberration and a lot of nonsense. Nobody in the USSR however gives a thought to rectify this aberration. One does not want to stir up the nest of hornets one created for oneself.

- *Conscience controls and differentiates between right and wrong.*
- *Every human being possesses such a conscience, but one's freedom of self-determination can ignore one's conscience.*

People however *know* whether they do right or wrong in spite of this. This is purely the concern of every individual that is not afflicted or dysfunctional due to a mental illness, ergo, of every normal human being. Everyone possesses an inner *unerring* MONITION in the form of a mental voice.

People refuse to accept GOD, because they intuitively recognise their own character's development. They fear GOD and they therefore take no interest in GOD by convincing themselves that HE does not exist. They therefore sympathise with every philosophy that is of an *atheistic* nature.

Applying logic more assiduously would tell them that they are terribly wrong. Death does *not* release one from one's most profound responsibility. On the contrary – it leads one with absolute certainty directly to one's responsibility.

- *He who kills his fellow men must atone for this deed, even if he did not personally commit the act, but ordered it!*

In regards to sinning, people should not be guided by church mumbo jumbo; they do not end up in a sulphur pit the like one tries to make them believe exists. The development of these people is however thrown back to such a degree that it will take *more than a thousand years on Earth* to make up this leeway. This is a punishment you find impossible to assess; we endeavoured to find the TRUTH through serious research and we managed to gather some evidence.

I can well imagine that the “oh so clever” will come and say: ”GOD is after all a cruel avenger. Where is the *dear* GOD everybody talks about?”

- *GOD is just.*
- *Justice and logic are inseparable from GOD.*
- *GOD could never allow murderers and negative people to continue to play cat and mouse with mankind without being punished. These people would end up even worse than before.*

There exists a GREAT LATCH and KEY for this:

- *These people are reincarnated on a lower level of development, ergo reborn; because GOD does not work with time, only people are guided by timing.*

He who kills must die, even if it happens in the hereafter; there is no escaping this. But this can take place in another life! – There is however an active SPHERE of EXISTENCE, it exists between reincarnations and it is in a spiritual realm that offers great opportunities for one’s development and insights.

- *The time this development takes is infinite and man living in the physical can make provisions, that is to say, can reduce the time of his development by endeavouring to be a human being!*

### **Man and inspiration** (Transmission from the universal teacher ASHTAR SHERAN)

You believe that the great crises of this world have been eliminated through the paramount minds of your leaders. Most of these crises have however been mitigated through a concentrated inspiration from the POSITIVE WORLD of SPIRIT. – There is however also a *negative world of spirit* that asserts an influence on the people on Earth. People can protect themselves against this if they are aware of these things.

Most people unfortunately still doubt the existence of a world of spirit.<sup>10</sup> – One does not want to accept the fact that a MOST EMINENT INTELLIGENCE reigns *over them*, one that constantly observes them and pushes and guides them through *inspiration*.

- *Mankind is governed by an unimaginably formidable ORGANIZATION.*

I can well understand that based on your opportunities to compare things, you find it difficult to believe in an invisible SPIRIT FORCE. But *who prevents* the visiblensness or the perception of

---

<sup>10</sup> The “*Tagesspiegel*” (German Newspaper) from the 12<sup>th</sup> of April reported: (AP) Eerie events that took place at a Rosenheimer law office two years ago were presented to the Kadi (Muslim Judge) a few days ago. The district court at Traunstein decided: These eerie events were not manipulated and it therefore prohibited the Viennese Zsolnay Publishing Company from calling the supernatural apparitions taking place at the office of the attorney Siegmund Adam, manipulations or pranks in their book titled “*Falsche Geister – Echte Schwindler*” (False spirits – genuine swindlers). The passages in question must be made illegible in the next editions of this book. Knocking sounds, dancing images and swaying lamps were perceived in the law office of Siegmund Adam.

*Kirilian photography* photographs the moving aura of people, animals and plants. Based on their experiments, Soviet scientists, *Dr. V. Grischtschenko, Dr. N. Schiskij, Dr. N. Fedorowa* amongst others, announced the following: “All life forms, animals, people and plants also do not just possess a physical body, but also a fluid counterpart, namely an energy body. This energy body became known as the *biological plasma body*. This completely refuted the *Dialectic Materialism* that spiritually poisoned almost the whole world. This conclusion was even reached within their own ranks.

these divine spirit forces?

Many public criticisms voiced the opinion that the whole world must by necessity enter a different situation that changes everything the moment evidence is provided that people must justify and give account of their actions in an otherworldly existence.

- This evidence of an otherworldly existence has been provided to you a *million times* over; whether it is ignored or derided by you is another matter.

I ask you: Why does the world has to find out only now that man spiritually survives physical death? If mankind is aware that it is negative and that it continues to head towards disasters, it shouldn't really require the recognition of proof that has existed for millennia. The realisation of being negative should really suffice.

This humanity has not yet realised just who or what POWER hides behind this negativity. Mankind's leaders do not fear the devil, because they do not believe in him. This suits the devil, because he remains *unrecognised* and is able to direct his concentrated inspiration on people that are unscrupulously subservient and amenable.

- *Through a virtually enforced doubt and particularly through their spiritless ungodliness, people destroy all connections that exist between matter and spirit. This is the reason why these people cannot gather any experiences in this regards.*

The atheist or the ungodly doubter makes any supernatural inspiration impossible. He has no real chance to utilise his own ESP. These people distance themselves from the positives spheres and open their soul, that is to say, their spiritual receiver station, to inspirations from the dark side, to the devil's pernicious intelligence.

- *The GREAT PLANNER therefore only helps people with a higher level of development.*

You however look upon the masses you are absolutely aware of that they commit an outrage. You would however like to be in their shoes, because you are of the opinion that all of them have a particularly good time. You miss the wished for bolt of lightning that should strike these wrongdoers. – But if you knew just what these brutes *are faced with*, you would have shivers down your spine and you would certainly not yearn to trade places with them! – Their last breath on Earth alone is such a scary experience for these people that I find it impossible to find the words to describe it. The whole agony of their human calamitousness is concentrated within a few last gasps of breath – and the bitter end is still to come. These are no empty threats, but the result of a life on Earth lived upside down, because one never made an effort to find the correct INFORMATION. No creature throughout the universe is capable of abrogating this divine LAW. It is absolutely pertinent!

It is however different with those that have displayed *just a smitten* of good will. They receive the SUPPORT of the GREAT PLANNER and HIS INFORMERS *according* to their merits. Nobody can change this LAW and this is why this HELP is such an absolute certainty!

- *However those that endeavoured to promote mankind on a daily basis according to the HIGHEST PLANS and carried the sorrow of this difficult MISSION like a cross, will be guided*

*to the spiritual realm by an ANGEL and nobody throughout the universe will be able to prevent this from happening. This is also a UNIVERSAL LAW!*

Well, I know from experience that various factions will declare that these MESSAGES and INDOCTRINATION are *imaginative fairytales*. But this doesn't change these messages and this information at all.

- *The GREAT LAW of KARMA of atonement offers the only solution for extricating oneself from a self-inflicted dilemma. KARMA however demands a ten fold atonement for the sins you have committed!*

One *cannot* eliminate these universal LAWS through church confessions. No priest on Earth has the power to change anything about them!

- *The PLANNER'S LAWS are also compellingly pertinent for priests!*

Therefore do not allow people to promise you things they cannot keep. Their lies are designed to exploit you financially.

### **Youth and old age** (A discourse by the universal teacher ASHTAR SHERAN)

Youth holds the opinion that it has *the advantage*.

Youth is serenaded in song, praised and envied ... Is this the way it should be?

Does youth actually have such a prerogative over older people?

I say: *No!*

This assessment of youth, well actually the whole range of human age, is an *erroneous observation* based on false programming. An assessment based on mistakes! Great civilisations in particular regard people's advancing years as an inescapable evil. A lot of people make the mistake of *mourning* the loss of their youth. They are well aware that they have squandered their youth. The reality is actually quite the reverse!

Youth is in many respects at a disadvantage. This fact is unfortunately not correctly recognised, because the people on Earth lack the required spiritual insights. Older people have some experience in this regard and this gives them a certain maturity. They are less inclined to be slaves to their urges and passions and their dangerous sexuality. They gradually extricate themselves from the demands of the flesh. This alone brings some advantage; because it supports their free strength of judgement and leads their spirit towards greater objectivity.<sup>11</sup>

- *Young people are still faced with impending disappointments; they still have to journey along the path of self-experience. And then there is the power of erotica, it creates difficult situations and conflicts and this often retrogrades people's development severely.*

---

<sup>11</sup> ASHTAR SHERAN once told us that the SANTINER do not want to bring about changes on Terra through the utilisation of their superlative powers. The things we lack the most are a positive indoctrination and the correct information. These indoctrinations are veritable revelations coming from space; we shouldn't just acknowledge them, we should contemplate them and *eventually live accordingly!*

Old age represents one level of development. This is why old age is beautiful, not in regards to externalities, but in regards to one's inner maturity.

- *Those that correctly identified the meaning of life and are somewhat informed about life after death are already extremely well advanced of inexperienced young people that still have the difficult process of maturity in front of them.*

Youth finds it impossible to make *objective* assessments and to foresee consequences without the corresponding life experiences. A whole life is required here and even this is not quite enough. The dumb and inexperienced however have no oversight over their dullness and think that they are clever and wise. This is why one should exclude youth from having to make difficult decisions, because this would only lead to calamities.

- *He, who would like to exchange his advanced years with his youth is a blockhead who wants to relinquish something precious to revert to something immature and undeveloped.*

The older a person gets, the closer he approaches his actual, superlative EXISTENCE. He stands on front of the door to the spiritual realm, whilst youth still has the path of redemption *in front of it*, exposed to a myriad of temptations and dangers that threaten to blockade the path of development. Youth is attacked from all sides by demons and their temptations. The control and the experience to victoriously resist them are lacking. Youth therefore has no reason to underestimate people of advanced years and to regard their situation regrettable.

- *Old age is in reality already a SACRED CONDITION, one that takes physical matter its imagined powers away thereby handing the spirit the better role to play.*

Youth is unfortunately not enlightened whatsoever about the relationship between the spiritual maturity of the aged and the immaturity of adolescents. This is the reason why youth do *not see* the maturity of older people, but only tired and veteran physical matter. People are mainly assessed according to looks and old age only receives appropriate attention *if sufficient assets* are at hand that might end up in the hands of the younger generation without them having to make too much of an effort.

If the younger generation will however give a commensurate assessment based on the looks and behaviourism of older people - they must remember just how devastating a sinful or wasted life can be – and they should regard this as a warning so that they do not chose the same path of absolute decay.

- *It is a sign that a person's development has been neglected when this person becomes good for nothing in its old age.*

Older people are about to face the SPIRITUAL REALM – and those that managed to gain some *positive DEVELOPMENT* and *positive INSIGHTS* – have an incredible, august and beautiful life in front of them, a life adolescents would have to have the greatest respect for. These people have reached a spiritual apogee, whilst youth still finds itself perplexed in the depths of complete despair, because nobody shows them the correct path to take.

## **The fear of death** (Discourse by the universal teacher ASHTAR SHERAN)

Death represents an eerie affair for everyone, because one hardly knows anything about it. One unfortunately does not endeavour to gain *actual* insights. No religion on Terra gives the correct answers. The only thing the people on Earth are sure of is that once the body does no longer show signs of life, it will decay. Whatever else takes place is completely unknown. Only a few enlightened people are informed about it, but they are not given credence to.

Well, we are a number of millennia ahead of you in regards to our development and death therefore no longer holds any secrets for us. If mankind on Earth would however also possess the same insights, things on Terra would look entirely different – and wars would no longer rage on Earth!

- *Inciting fears in regards to death is the meanest speculation scheme that only the GREAT PLANNER'S antagonist could come up with and put into effect.*

We have to give you *this* elucidation *to begin with* before we can undertake anything else. This terrible devilry must finally be tidied up.

- *Dreading death, being kept in suspense and in the dark about it and the idea of eternal sleep mars the spiritual attitude of all of mankind.*

The philosophical and psychological aberration consists in the fact that one unfortunately *assumes* that the physical body provides the soul with the required ENERGY to perform all its functions. But in regards to this ENERGY, the soul is absolutely *self-sufficient*. It provides the body with as much energy as its communication system requires.

- *Taking the whole human condition into consideration it is incredibly important to realise that the soul can function completely independently without the help of its physical body. Physical energy has nothing to do with the SOUL'S ENERGY. This fact makes human beings an important part of the cosmos.*

Death therefore only affects the body, never the soul. Apart from that, the soul also has a spirit body (astral body) that the soul also provides with ENERGY, namely spiritual ENERGY. Because of this interrelationship with the body, terrestrial science is easily duped. There is unfortunately a battle between pundits taking place on this Terra that immediately *nips real insights in the bud*.

There is a human race living on this planet and this human race must therefore be exactly informed about itself in order to live sensibly and healthily. The life the people on Earth live is a life filled with fear of death. It isn't just a case of being threatened by homicide and wars; mankind is afraid of dying, because it is absolutely unaware or incompletely aware of what takes place after death.

- *People don't just deal with their physical body on a daily basis, they also deal with the spirit. One shows however more interest in the physical body than in the spirit.<sup>12</sup>*

---

<sup>12</sup> Scientists in the USSR already recognised that human beings possess an immaterial soul, ergo a spirit body that is not subject to the process of dying. Their Dialectic Materialism, disseminated through millions of examples, however prevents them from using the term "SOUL". This is why one calls the immortal soul "ENERGY BODY". This however indicates at the same time that the soul possesses its own energy. It is a sad state of affairs that in spite of man's inherent curiosity people from another star system have to indoctrinate us in this respect.

- *Researching the human condition with its spiritual functions and all its possible existences represents the most important assignment for the people on Earth!*

### **The great tradition of making mistakes** (Discourse by the universal teacher ASHTAR SHERAN)

Every tradition that makes it its business to continue to maintain, to consolidate and to pass on irreversibly *assumption, aberrations* and *untruths* from generation to generation, is *against* the divine plan of DEVELOPMENT – and therefore *against* all spiritual advancement. It is negative and only serves GOD’S antagonist.

One of the most important traditions is based on the fact that one portrays the human body, physical matter, as the personality, the conscious self, that allegedly comes from nothingness and returns to nothingness.

- *The soul* on the other hand, the real EGO, the actual personality and individuality that consciously survives, ergo *without* a body, and eternally and immortally exists in the name of GOD, is called a *ghost* and *ridiculed* and *derided* in caricatures.
- *The discarded body* that served as an instrument during a physical existence is rendered a religious service with *fanatical, absolute piety and respect*, it is carried with more or less pomp and ceremony to a grave site, marked with monuments or gravestones with completely erroneous inscriptions and all of this is turned into a death or cemetery cult that debases the true CREATIVE EFFORT thereby *affronting* GOD’S formidable SPIRIT.

You are surely aware of what happens to the bodies of millions of innocent men, women and children during wars and other catastrophes. It is strange – but one doesn’t take too much care in those situations. This however speaks for itself!

There are no valid reasons that could be listed to justify the heart-rending funeral services that take place at cemeteries and crematoriums in conjunction with the most horrific mental anguish and ensuing tragedies that could lead to suicide. The inscription RIP is in itself a **great mistake**; what happens to the soul after has nothing to do with peace, because the so called “dead” remain *very active* and even *influentially* participate in people’s lives on Earth.

- *Your burial places and endless gravesites are an object lesson in complete hopelessness, a breach of trust in regards to GOD and immortality, a derision of sacred REINCARNATION and the human EGO. It represents an enormous, macabre documentation of an aberration that results in the most terrible situations for your world.*<sup>13</sup>

---

<sup>13</sup> The people on Earth naturally assume the presence of other, highly developed humanities on other planets. One tries to establish communications with the help of technology. These attempts were unfortunately in vain. One is also of the opinion that these humanities are such enormous distances away from us, that it takes years before they receive our signals. It is a fact that signals are sent into space that should draw a receiver’s attention to the fact that people live on Terra.

As one can see, a form of communication does exist and it is certainly not a rarity! The bible informs us that a dialogue took place at biblical times. The SANTINER express themselves clearly and comprehensibly even nowadays. The credibility however is lacking. Due to the constant defamation of UFO pilots, nobody believes the fact that we have had extraterrestrial visitors for millennia. It is therefore difficult to comprehend that verbal contacts do exist.

We have given serious considerations to how we could best bring about the required credibility. It is still very difficult, particularly when taking

No half way positive soul has any kind of interest in the ash or the decaying process of their discarded body and even less interest in remaining at their grave site or a sad cemetery and the heavy burden of the mind associated with these places.

We cannot comprehend that allegedly intelligent people practise this sort of nonsense.

It is all too absurd!

We however assume that a *digressive tradition* virtually forces ignorant relatives and friends to visit places of interments, because they believe that these places are best suited to remember past relatives or friends.

- *A picture of the departed next to a vase of flowers at home is an infinitely better option!*
- *Prayers are also important!*

One does unfortunately *not* give prayers a lot of importance on Terra, one gives rather more importance to illogical requests.

The world's population is deprived of a lot of good things; it therefore comes as no surprise that everybody yearns for riches, wishing to get their hands on the treasures of the Earth. All of this depraves mankind mentally more and more.

The fact that the term "soul" has not been removed from all vocabularies long ago is astonishing. One is already in the process of covertly remedying this with the term "GOD".

### **Revolution instead of religion** (A discourse by the universal teacher ASHTAR SHERAN)

This Terra is a *dishonourable, bloody* planet and it has not been a credit to the universe up to now. Even the major religions that *should* really have the same goals, have behaved dishonourably. There is however one sacred religion on Terra almost all of mankind believes in, gives special attention to and completely submits to. It is the religion of the devil and it is called: *Revolution!*

- *Revolution is the opposite of harmony and peace. This is why world peace can never be achieved through revolutions; because revolutions utilise brutal means that can neither be justified through logic nor common sense.*
- *Rebelliousness, civil wars, mutinies, affrays, fracas and total confusion can never serve a divine purpose, namely peace.*

GOD'S enemy however whispers different explanations about a revolution in your ears and you,

---

the present situation into account. We can only hope that trust is established and we can only continue to indicate that we have been endeavouring for over 20 years to fulfil a great mission in this way with all our might. We have also been looking for co-workers in this mission over all these years, but we have unfortunately found only a few. This is an indication of just how serious the populace believes what journalists, who are the greatest and most unscrupulous doubters, write in their articles. If the SANTINER have visited and observed us for millennia and probably interfered in our development, one can naturally assume that they understand our world languages. Everybody on Earth knows that the administration of this Earth is amiss; it doesn't take a genius to work that out! The cohabitation between nations is not just troubled, it is downright impossible and it can degenerate into deadly hostilities. But how can we imagine this communication between the SANTINER and ourselves? Their criticism is presently still very tolerant. This might be the reason why one does not want to believe them? We may however not forget that they are morally speaking, well ahead of us.

in your madness, believe him. He tells you in your own language: “Reorganisation”, “progress”, “improvement”, “reform”, “renewal” and a lot more. Your scientist say: “One can interpret things also differently...” We are of the opinion that *our* interpretation “hit the nail on the head”!<sup>14</sup>

CHRIST’S DOCTRINES no longer suffice; they were pertinent at that time. This was however the beginning. These doctrines have to be *different* these days, because the whole world *has changed*. Mankind demands great things from these eminent DOCTRINES.

*The world requires a LEADER that knows his way through the jungle.*

One has however not reached a point on Terra where one is aware how other nations react or think. One makes assessment according to one’s own conclusions and this includes one’s arrogance. Inexperience goes as far as that one doesn’t even know just *how* the devil reacts and what his *real* intentions are.

### **Ignored LAWS** (Discourse by the universal teacher ASHTAR SHERAN)

Mankind on Earth is *not without* GOD’S LAWS, but it *does not live according* to these LAWS, they ignore them as if they had nothing to do with them.

- *One does not believe in these LAWS, because one does not believe in the existence of the LAW GIVER!*

If one were to look at a palace and simply say: “This bodacious palace was not designed and built by an architect, this glorious palace coincidentally came into being by itself”, one would say that the one that asserts this must be totally insane. – I dare to say that every person on Earth that does *not* believe in the existence of a CREATOR or even doubts this fact must be totally insane. *Logic* is also *lacking* here, because the people on Earth are *not willing* to stand under a HIGHER CONTROL and therefore refuse to obey their HIGHEST SUPERIOR. – An anti-authoritarian attitude against GOD!

- *Where obedience cannot be achieved, chaos threatens!*

You have chaotic conditions on Terra. He, who doesn’t believe this to be true, has not shown an interest in this world. The terrible conditions that reign on Terra are incredible. It is remarkable however that there is *no* anti-authoritarian attitude against the devil – as you like to call the anti-spirit!

The majority of the people on Earth are gripped by an incredible laziness when it comes to thinking. Nobody wants to take the responsibility. But many of the vices that *ruin* people physically and mentally are *not detested*, but are *very much in demand*; one is even prepared to pay maximum prices, usurer’s prices to speed up one’s own demise!

---

<sup>14</sup> ASHTAR SHERAN has the talent to call things by their correct name. The indignation felt by the peoples on Terra is understandable, but it may not degenerate into rebellion. There is only one means to combat violence, namely the TRUTH and it is DIVINE. This is why OBJECTIVE TRUTH, that is to say, UNIVERSAL RELIGION, is above every revolution. A nation with all its people is like a brother to another nation and those nations that believe that their development is ahead of another nation’s development must behave in a *archetype* manner and not try to change the mind of their neighbour through force. What Terra lacks is an education system for nations! Once aberrations have gained a foothold, they are very difficult to remove. Governments must realise that their responsibilities lay not just with their own people and also not just with this world; they must know that due to their position, they are also responsible in regards to the CREATOR and HIS CREATION. ASHTAR SHERAN is without doubt a great TEACHER. We admire him.

The ingenious CREATOR, who provided LAWS for all people, has *not* personally come to Terra in order to place HIS important LAWS into man's hand. HE had these LAWS *delivered* through HIS trusted CO-WORKERS. These HEAVENLY LAWS were delivered to the people on Earth on Mount Sinai by our forefathers. These HEAVENLY LAWS therefore do *not* stem from terrestrial thought processes, but from the thought processes of the divine HIERARCHY!

Philosophers have tried to defame these HEAVENLY LAWS by saying that they sprang from *human minds*. The request for ungodly thoughts and atheistic explanations is *immense* on Earth and if finds support *everywhere*, whilst one shows little interest in positive proposals and indoctrinations. The divine LAWS make *no exception*. Philosophy however asserts that these LAWS were *conceived* based on political and social considerations. This is not just an aberration, but a *conscious lie*.

In contrast to terrestrial legislation, HEAVENLY LAWS do *not* contain specific information about a punishment that might apply after an infringement has occurred. This is already an important reason why these LAWS are ignored by almost everybody. GOD however did not point these COMMANDMENTS and DEMANDS out without reason.

- *Those that ignore these HEAVENLY LAWS bring ruin upon themselves, because the laws of nature are subject to the principal of causality!*

This is not threatening you with a “boogie man”, it is simply the consequences that sinners will be *irrevocably* faced with.<sup>15</sup>

The greatest CONSCIOUSNESS within the universe, namely GOD, handed mankind COMMANDMENTS that makes the cohabitation between people, groups and nations possible. These COMMANDMENTS are a warning. Those that do not heed these warnings take the risk of incurring for themselves and their descendants the greatest possible suffering.

- *A divine COMMANDMENT is a FATHERLY warning and admonition to avoid a great danger. The FATHER is unable to help, if the non-compliance with these well-meant warnings brings about such calamity.*

When people take drugs, they are well aware of the consequences. But they still take them! – This is a *disregard* of a COMMANDMENT, a trespass against the laws of nature. The situation is similar in regards to the HEAVENLY LAWS: People are *aware* of the dangers, but they still *ignore* the HEAVENLY LAWS and continue to sin. The divine LAW however answers with the same consequences *and any chance of deliverance is impossible*.

If these COMMANDMENTS and INSTRUCTIONS had emerged from the minds of people, they would only have a *subordinate* pertinence. These divine LAWS however *warn* about something *invisible*, about calamities that the normally functioning human mind cannot portent. Such a calamity can easily bring misfortune throughout the lifespan of a person, well, even affect a whole family or a clan. The danger (the advent of such calamities) is enormous in regards to all of these warnings.

---

<sup>15</sup> The bible, an old, historical document, verifies that extraterrestrials already tried in those days to teach the people on Earth a sensible religion. Nothing has changed in regards to this mission. ASHTAR SHERAN tries to warn us with logical contemplations and arguments, so that we do not sink any lower. A moral and ethical decline can actually be observed and there is no genuine respect for living things either.

We have observed that there are successful people of world wide renown, that allow their talents to be used *to attack everything positive* within the field of human endeavour and to derisively dispute everything supernatural and extraordinary, by claiming to be omniscient. You *bask* in possession of all this might. – But *who* ultimately gave you this power? – *Who* told you to abuse this power?

The LORD says: “Every human being on this planet senses that all powers flow from my hands and it has never entered my mind to apply this power to do evil.”

There are people that commit incredible *murderous* acts. Then there are those that *defile* and *torture* their fellow men to death. There are also those that *affront*, *exploit* and also *gibe* their subjects. There are people one finds impossible to understand because they are monsters. Some questions must inevitably spring to mind:

- Why does GOD not put HIS foot down?
- Why does GOD allow these abominations to take place?
- Why doesn't HE show empathy for HIS creatures?
- GOD doesn't exist otherwise HE would have to interfere!

I can well understand your thoughts. You however only assess and think according to the yardsticks of one single, short human existence – but these yardsticks *are incorrect!* You do not assess things according to the yardsticks of *immortality* and not according to the points of view of a *reincarnation* on Earth. – This is why it is wrong to assume that GOD only looks on.

- *The power of faith is the POWER of the SPIRIT! This SPIRIT stands way above physical matter, because physical matter is subordinate to the SPIRIT.*

You may not be able to assess the enormous POWER inherent in an *appropriate* prayer. Prayers are mocked, but if the *request is justified*, they are effective just the same. The people on Earth unfortunately lack patience in all things. If their patience is not gratified, the people on Earth lose control and turn negative.

### **Without regard** (Discourse of the universal teacher ASHTAR SHERAN)

I find it difficult to continuously criticise you severely. I will now say a few departing words; I do not know when the opportunity will represent itself to communicate with you again. I would like to say that we are infinitely saddened; that we suffer mentally and physically by the fact that it has been impossible for us to convert you to our way of thinking and this for millennia. We do not want to be the founders of a new religion, but people implicitly require the KNOWLEDGE that many higher LEVELS of EXISTENCE await them.

- *As people want to know so little about any religion, how can they have respect for the UNIVERSAL?*

The leaders of this humanity show no respect for neither themselves nor their fellow men and also not for the universe and least of all for their world.

We are very concerned, particularly about the *abuse of nuclear energy*.

Nuclear experiments assault the cosmos!

- *Political leaders do not respect life and as life stems from GOD, they therefore also have no respect for the CREATOR.*

There are nations on Earth that are allegedly not at war, but we are of the opinion that they are engaged in a terrible war *against all of humanity* because they are not frugal in regards to testing nuclear bombs.

You cannot imagine the damage that has already arisen in the cosmos.

We do not waste our time undertaking joyrides over this planet. We represent a GUARD that is absolutely imperative, because one does not know what consideration is on this planet. One is not interested in whether millions of children are born *deformed* or *mentally damaged*. One destroys life in the oceans and one unscrupulously contaminates the whole flora and fauna of this Terra without showing any respect.

Our COMMISSIONER has raised his arm and this is a warning signal!

One did not listen to our admonitions in Sodom and Gomorrah – and one had to suffer the consequences! The whole globe is a Sodom and Gomorrah nowadays and we are committed to preventing the worst.

- *Parapsychology provides you the evidence that the SPIRIT is immortal; but also that the SPIRIT has to carry the responsibility!*

ASHTAR SHERAN

**Epilogue** (By Herbert Viktor Speer, leader of the MFK-Berlin)

A verbal UFO contact takes place during an incredibly short time. ASHTAR SHERAN can not be quoted, the other SANTINER neither. About 18 months have past without us being able to establish a UFO contact so we were more than happy to once again having heard from ASHTAR SHERAN. We really should take his words to heart. The things he is saying are not new, but he has the talent to give a correct explanation.
